SECTION I
OVERALL PRACTICUM REQUIREMENTS
Clinical practicum is provided for graduate students in the University of Cincinnati Speech, Language, and Hearing Clinic as well as in cooperating outside agencies. Graduate students gain experience across the lifespan with a range of communication disorders in a variety of clinical settings.

Observation Hours
ASHA requires that students obtain 25 hours of observation with children and adults with disorders of speech, language, and/or hearing. This experience can either be observing diagnostic evaluations or treatment and must be supervised by a person holding the Certificate of Clinical Competence (CCC) in that area.

Clinical Clock Hours
Each student must obtain a minimum of 400 clock hours of evaluation/treatment experience (this includes 25 observation hours) by the time the Master’s Degree is completed. This experience must be with a variety of disorders. ASHA requires that students meet basic skill competencies in evaluation and treatment with children and adults across the scope of practice. The Department of Communication Sciences and Disorders has set the following minimum requirements in assessment and treatment.

SPEECH-LANGUAGE PATHOLOGY:
Minimum ASHA requirements: 375 hours + 25 observation hours
Minimum UC requirements (specific competency areas):

***Speech Disorders include Voice, Articulation, and Fluency***

AUDIOLGY: 10 hours hearing screening
The more clinical hours obtained with a variety of clients, the better prepared the student will be to meet the challenge of working in this professional field. Students will need to achieve competency in all Big Nine Disorder areas: Articulation, Language, Hearing, Fluency, Voice, Swallowing, Cognition, Social, Communication Modalities, and professional requirements. It is required that clock hours are entered and submitted to supervisor each semester.

**Practicum Commitment Form**

Students assigned to clinical practicum must complete a practicum commitment form with their supervisor(s) within the first 2 weeks of the semester for each practicum setting, through the duration of their graduate program. If continuing in a practicum setting across semesters, the same practicum commitment form can be honored if the dates/times reflect the commitment to that setting within that timeframe. If a student is assigned more than 1 supervisor per setting, 1 form may be filled out, as long as the schedules of both supervisors’ match. If supervisors have different schedules but are sharing a student, it is the supervisors’ prerogative if both supervisors will reflect the student’s commitment on 1 form or if they will complete separate forms. Students upload a practicum commitment form for each setting to CALIPSO.

**Clinical Clock Hours and Competencies Tracking System (CALIPSO) (Clinical Assessment of Learning, Inventory of Performance, and Streamlined Office-Operations)** This is the electronic database system UC uses for tracking completion of your coursework, clinical hours and competencies for graduation. The supervisors on and off campus also use this system to complete an evaluation of you during your clinical affiliations and approve your clinical hours. This system is also used to house required documentation in the program. You will receive more information at the start of the program in the fall about how to create an account, use the system, which documents to upload and how to retrieve those documents. The cost for each student is a one-time fee of $85.00 upon initial registration and further instructions will be provided shortly after fall semester begins.

**CALIPSO Clinical Skill Evaluation and Scoring**

At the end of every semester, the student’s supervisor will complete an evaluation of the student’s performance. Prior to this the student must fill in the hours accrued in various categories within CALIPSO, and the supervisor will complete the Performance Rubric ratings which indicate the level of competencies and skills the student has achieved. The student and preceptor should review and discuss this evaluation at the end of the semester before the supervisor finalizes it.

Each student is scored using the Performance Rating Scale below on various Clinical Standards. This scale is from 1-5 in various competency areas. As the student gains more clinical experience each year, the total score expectation will increase. The scale is as follows:

1. Not Evident: Requires constant supervisory modeling and intervention. Skill and progress are not present.
2. Emerging: Requires frequent supervisory instruction. Skill is emerging.
3. Developing: Requires frequent supervisory monitoring. Skill is present but needs further development.
4. Refining: Requires moderate supervisory monitoring. Skill is developed but needs refinement and/or consistency
5. Independent: Requires infrequent supervisory monitoring, guidance, or consultation only. Skill is well-developed and consistent.

Recorded hours within CALIPSO constitute the official record used to verify students’ competencies and clinical hour accumulations toward fulfilling licensure, ASHA, ABA and degree requirements.

**Supervision of Required Clinical Clock Hours**

Persons holding CCC in Speech-Language Pathology may supervise:

- All speech-language pathology evaluation and treatment services;
- Non-diagnostic audiological screening (i.e., pure tone air-conduction screening and threshold testing, screening tympanometry, and acoustic reflex testing) for performing a speech and/or language evaluation or for initial identification of individuals with other communicative disorders;
- Aural habilitative and rehabilitative services.

Persons holding CCC in Audiology may supervise:
- Audiological evaluation;
- Amplification (hearing aid selection and management);
- Aural habilitative and rehabilitative services;
- Speech and/or language screening for initial identification of individuals with other communicative disorders.

### Obtaining and Documenting Clinical Hours

- **Only direct client contact time** may be counted as clinical practicum hours. Per ASHA, only direct contact with the client or the client’s family in assessment, management, and/or counseling can be counted toward the practicum requirement. Time spent in writing lesson plans, scoring tests, transcribing language samples, preparing activities, and writing reports may not be counted.

- Hours to be counted in the “evaluation” category include the initial and formal diagnostic assessment re-evaluation (another formal assessment). Periodic assessments during treatment are to be considered “treatment.” If periodic assessments include re/administering a standardized assessment, whether hours are counted as ‘Evaluation’ or ‘Treatment’ are at the site supervisor’s discretion.
  - Time spent with either the client or a family member engaging in information seeking, information giving, counseling, training for a home program, Individual Education Program (IEP) meeting, Family Service Plan meeting, Family Care conference or Habilitation Plan meeting may be counted as clinical clock hours (provided the activity is directly related to patient care). The competency area of these hours is at the discretion of the site supervisor.

  - Time spent in a multi-disciplinary staffing, educational appraisal and review or in meetings with professional persons regarding diagnosis and treatment of a given client may not be counted if the client or family member is not participating. Conference time with clinical supervisors may not be counted.

  - If a client presents communication disorders in two or more of the disorder categories, accumulated clock hours should be distributed among these categories according to the amount of treatment time spent on each. For example, if a client with both language and articulation problems received twenty hours of treatment and approximately 3/4 of each treatment session was spent on language and 1/4 was spent on articulation, the clinician should record credit for 15 hours of language treatment and 5 hours of articulation treatment.

  - Students enrolled in practicum will need to achieve competency levels of 3.5/4.0 by the end of their second year of graduate study in the nine areas of disorder types reflected on the Student Performance Evaluation as well as areas of Professionalism. These are: Articulation, Language, Voice, Swallowing, Hearing, Social, Cognitive, Fluency and Communication Modalities.

### Clinical Remediation/Action Plan

If a supervisor feels that, at any time during the clinical placement, a student is not moving toward independence in the clinical setting, with clinical skills and/or with professionalism/preparedness/interactions, he/she will contact the Director of Clinical Education/Practicum Coordinator/Program Director who will meet with the supervisor and student to develop an Action/Remedial plan. The plan will be created collaboratively and signed by all involved.

If a student has not met competency expectations at a practicum site, he/she will be placed on practicum probation for the following semester which requires successful fulfillment of the remediation/action plan. If a student receives an action plan at two sites and is not successful in gaining the needed competencies, practicum will be terminated. See policy below how academic and clinical procedures of Notice, Probation, Suspension, Dismissal and Appeals are aligned.

### Policy for Alternative Clinical Education (ACE)

#### Background
ASHA is now recognizing Alternative Clinical Education (ACE) as a mechanism for academic/clinical
teaching, achieving competencies and clinical hours (75 hours). ACE has been added and can be tracked in the CALIPSO documentation system. Currently, Simucase has developed additional cases with varying age and disorder representing both Speech Language Pathology and Audiology.

Instructors for academic courses are increasingly using Simucase for practice purposes. Clinical instructors have been using Simucase as well in a variety of ways including students working through a Simucase if a client has cancelled. Students can achieve clinical competencies as well as clinical hours, which have been pre-established for time limits by Simucase. Simucase has also been used as a mechanism for remediation for students.

UC Policy
At this time, we are proposing/recommending that students can generally obtain up to 10 hours of ACE via Simucase or other suitable ACE methodologies (e.g. case study, IPE review). ACE can be gathered for the following reasons:

A. To supplement clinical hours
B. To obtain missing clinical competencies
C. As part of a remediation plan
D. Additional targeted clinical practice

Requests to obtain ACE hours should be made to the Clinical Practicum Coordinator for the student’s program OR the UC Director of Clinical Education. The Coordinator will work with the student and a faculty member (as needed) in the specific area of the case to meet the student’s clinical needs. For example, there may be a difference in review of the case for a student seeking remediation vs. one for obtaining general clinical hours and competencies. At this time, a student must reach 95% competency to obtain the hours. Only the time recommended by SimuCase will count towards clinical hours, regardless of the actual time the student needs to obtain a 95% accuracy level. If less than the maximum time is documented via Simucase, the student will only accumulate the actual time spent in the case.

SECTION II

POLICIES AND PROCEDURES

Essential Functions
Students will read and sign that they understand the Essential Requirements document that describes “essential qualities and abilities that are considered necessary for a student’s success in academic/practicum programs. I understand that if I am unable to meet these standards, I will be required to complete the procedure for improvement, as stated in the Graduate Student Screenings follow-up policy. In addition, I understand that if I am unable/unwilling to meet these standards, further action may be taken.

Graduate Student Screening and Follow-up Policy
At the beginning of their first semester, first-year graduate students in Speech-Language Pathology and Audiology will participate in a screening of communication skills and essential functions related to Speech-Language Pathology and Audiology academic and clinical program requirements. The results of this screening will be utilized to support the student and tailor any specific program needs. The graduate student should demonstrate adequate skills for hearing, articulation, oral and written language, voice/resonance, fluency, syntax/grammar, reading and pragmatic language.

This screening directly relates to the statements that are included in our department’s list of essential functions for our profession.

*Second-year graduate students who are available (excused absences will only include practicum assignment conflicts) and in need of hearing and/or speech screening hours are expected to be available on the Friday morning (8:30-11:30a) PRIOR TO the beginning of fall classes to screen incoming first-year graduate students in SLP and AUD. First-year students reserve the right to request a screening conducted solely by a faculty member.
Faculty will be present in all screening rooms through the duration of the screening process. If concerns are identified during the screening, the following procedure is recommended and will be discussed with the student(s) on a 1:1 basis:

- During the first semester, a follow-up evaluation or consultation is required by faculty in the on-campus clinic or location of choice/other which is related to the communication deficit or concern that was identified in the screening.

- If the results of the evaluation indicate that follow up/accommodations/education/special consideration is recommended, the graduate student should seek follow up to develop reasonable accommodations for deficit area(s), increase awareness and management of the communication deficit(s) or other area(s) of concern.

**Physical Examination, Immunization and Training Requirements**
Both the Graduate school and the Department of Communication Sciences and Disorders requires a physical examination and proof of immunizations. Required CSD immunizations and documentation include:

- Hepatitis B or HEPLISAV-B series **AND** negative quantitative HBSAB titer
- MMR series **OR** MMR negative titer
- Meningococcal (A) Quadrivalent (For students who are 16-21 years of age)
- Influenza, annually
- Initial 2-step TB or PDD **OR** negative IGRA Blood Test
  - Subsequent annual TB screening
- Tdap
- Varicella series **OR** negative VZV IgG titer

Students may not be placed in a clinical setting until all immunizations are completed according to program requirements. See form in Appendices. Official form should be retrieved via MedProctor website and should also be uploaded to MedProctor database per instructions.

Some clinical placements may require additional vaccinations which will be communicated to the student directly from their assigned practicum site, such as drug screening, CPR training, additional vaccinations (influenza, Tdap/Dtap {tetanus, diphtheria, and pertussis, i.e. whooping cough}), or site-specific training.

**MedProctor**

**General information:**
MedProctor is the immunization tracking system implemented in fall 2017 at the University of Cincinnati. See website to read more specific information. [https://med.uc.edu/uhs/vaccination](https://med.uc.edu/uhs/vaccination) Students who are registered for 6 or more credit hours are required to comply with this policy. The University of Cincinnati has immunization and health screening requirements to protect the health of individual students and all students as part of the larger campus community. Infectious diseases are of particular concern to universities due to the large number of students living, studying and working together in close quarters. Recent outbreaks have occurred on campuses across the United States. The University Health Services [UHS] will implement and enforce this policy. Students will see a ~$50 charge in university fees on fall 2018 tuition statement for the cost of MedProctor. For an additional OPTIONAL $10 fee, the student can gain access to MedProctor immunization records. MedProctor communicates directly with each student to notify when required immunizations are complete and what is missing. UC CSD does not have access to this system; therefore, questions for MedProctor must be directed to them or UHS.

**CSD-specific information:**
The CSD immunization form and the MedProctor form are one-in-the-same and is attached to this email. When you gain access to the MedProctor system, in the drop-down box you should see a choice for a specific immunization form for CSD. You can use the form attached to this email instead of filling that one out directly or printing it from the system. You should use the attached form to record the immunizations with physician signature(s) and upload it to the MedProctor system. I would not recommend paying the $10 for access, as you will be loading this same form to CALIPSO, so you have access to it from there. The due date for this form in
MedProctor is October 1st of first-year graduate school enrollment. Failure to comply with the deadline and requirements of this policy will prevent students from registering for classes spring semester.

**Criminal Background Check Procedures**

All graduate students in the Department of Communication Sciences and Disorders are required to obtain a criminal background check to participate in practicum. Students in the Cincinnati area can go to the Department of Parking, Keys, IDs, located on the west campus in the Edwards building to receive an FBI/BCI (state and federal) Web Fingerprinting check. This department is open Monday through Friday, 8a.m. – 5 p.m. A form will be provided to you.

The cost for FBI fingerprinting is $34.00. Students in speech-language pathology are required to receive and additional BCI (state of Ohio) background check, to participate in practicum in the school setting. This cost is $32.00. You may pay with cash, credit card, or check made payable to The University of Cincinnati. Credit cards (VISA, MasterCard and Discover) are accepted. The results are usually available within 24 hours and can be picked up at that time.

**Bloodborne Pathogen Training (BBP)**

Students are required to complete mandatory yearly blood borne pathogens training. This must be complete at the beginning of their academic program and annually thereafter. Trainings may be accessed online through the following link: [https://webcentral.uc.edu/cpd_online2/](https://webcentral.uc.edu/cpd_online2/). Proof of completion through a certificate must be provided to the department each year of the program.

**Health Insurance Portability and Accountability Act (HIPAA)**

The Speech-Language-Hearing Clinic follows the privacy rules set by HIPAA (Health Insurance Portability and Accountability Act). All students will be required to take the University of Cincinnati on-line HIPAA training course and sign a confidentiality statement at the beginning of their academic program, and annually thereafter, to enforce this responsibility. There are consequences for violating confidentiality practices. Trainings may be accessed online through the following link: [https://webcentral.uc.edu/cpd_online2/](https://webcentral.uc.edu/cpd_online2/). Proof of completion through a certificate must be provided to the department each year of the program.

**Confidentiality**

Information regarding clients must be held in the strictest confidence. Cases may be discussed with the supervisor, faculty, other professionals, and other student clinicians in the clinic area; however, clients are not to be discussed with others outside these locations. Do not talk about clients in the waiting room, hallways, or anywhere else; individuals not entitled to the information might overhear your conversation. The Speech-Language-Hearing Clinic follows the privacy rules set by HIPAA (Health Insurance Portability and Accountability Act). All students will be required to take the University of Cincinnati on-line HIPAA training course and sign a confidentiality statement at the beginning of their academic program to enforce this responsibility. There are strict consequences for violating confidentiality practices.

**ASHA Code of Ethics and Ethical Responsibility**

All student clinicians are expected to perform according to the standards, practices, and guidelines established by ASHA as described in the Code of Ethics. A copy of the current ASHA Code of Ethics can be found in the Appendices of this handbook. Students are advised to become familiar with this document.

There may be opportunities for students to babysit or help families who have children and/or adults with disabilities. These are recreational or vocational services that are separate from providing skilled speech language services. We value this experience; however, there may be activities that could place students in violation of the Code of Ethics and Ohio licensure laws, whereas students MUST be supervised on site by a licensed speech language pathologist to provide evaluative or intervention services. This may include providing speech/language/hearing diagnosis and therapy while babysitting, engaging as a tutor for providing speech/language/hearing services or implementing goals from a student’s IEP (individualized educational plan). Some programs for children with disabilities, e.g., Autism, Downs Syndrome, Cerebral Palsy, Learning Disabilities, etc., may include speech and language intervention for which a student is not properly supervised by an ASHA supervised professional. If you will be helping a family with a child who has a communication disorder, and/or have any questions regarding a specific activity, please contact the Director of Clinical Education or CSD faculty.
It is in your best interest for us to know and talk about these experiences with you.

**Professional Dress Expectations**
The Speech, Language and Hearing Clinic provides screening, diagnostic evaluations, and a full range of therapy services to people across the lifespan with communication disorders. In addition, hearing-related therapy and assistive listening devices may be obtained through the Clinic. Graduate students in Speech-Language Pathology and/or Audiology provide these services.

All students participating in clinical activities are expected to present a professional appearance. Style of dress should reflect the role of a professional. Low cut or cropped blouses, tank tops/spaghetti straps, any color jeans, shorts, and gym shoes are not considered appropriate clinical dress. Skin should not be showing when the student bends over. Jewelry worn in the clinic should be conservative in nature and fragrances kept to a minimum. Tattoos and other body art must be family and child appropriate. The clinic dress code remains the same for all seasons of the year.

Dress codes may further vary by clinical site. When off campus, each student must follow the specific dress code of the clinical placement which may be more stringent. It is the responsibility of the student to determine off campus clinic dress codes prior to their first day.

**Professional Etiquette Expectations**
All students participating in classroom and clinical activities are expected to act in a professional manner, which includes turning off cell phones upon entrance into the classroom and clinic (on-site and off-site). Texting and/or surfing the internet will not be tolerated. Use of Apple watches and other smart watches is becoming increasingly popular. All smart watches must be put in theater or sleep mode while in clinic.

Attendance and punctuality are mandatory during the practicum experience. Promptness is a professional courtesy that all student clinicians must extend to patients. Clinicians should arrive at the practicum site with enough time before their scheduled appointments to check equipment, set up work areas, speak with the preceptor, etc., to enable them to see their patients promptly at the scheduled time. Attendance is further discussed in the attendance policy section of this handbook.

Promptness is a professional courtesy all student clinicians must extend to clients. Clinicians should arrive in the clinic with enough time before their scheduled appointments to check equipment, set up therapy rooms, and speak with their supervisors, etc. to enable them to see their clients promptly at the scheduled time.

**Social Media**
Clients, parents/family members/care partners, potential supervisors and employers will likely search for you on social media platforms. Students should be cautious and discreet about content and photographs that are ‘public’ on social media and should adjust social media accounts upon acceptance to and enrollment in UC CSD programs at all levels.

**Notice, Probation, Suspension, Dismissal, & Appeals**
Students may be placed on probation or dismissed for academic, research, or clinical practicum deficiencies, academic misconduct, and/or issues related to professionalism. Problems may be identified by faculty, off-site practicum supervisors, the Clinic Director, Director of Clinical Education and/or the Practicum Coordinator(s) and shared with the Program Director. Further, the Program Director monitors the following activity for all students:

1. grade reports (including practicum grades),
2. practicum performance,
3. research performance (if applicable),
4. ethical/professional conduct, and if applicable
5. success in completing remediation plans regarding competency.

When a concern is identified, a meeting is subsequently scheduled between the student and
appropriate faculty. These individuals may be the faculty directly involved with the student’s training, off-site practicum supervisors, Clinic Director, Director of Clinical Education and/or the Practicum Coordinator(s) Program Director, and/or Department Chair. The purpose of this meeting is to address the concern, problem-solve a potential solution, and create a remediation plan. Written documentation of the problem, including criteria for probation and dismissal will be signed by all in attendance (including the student) and will be stored in the student’s CALIPSO account, which is available to students.

Notice
Students will be placed on official notice if a grade of C is earned in either practicum or academic courses. This notice serves two purposes. First, it alerts the student of his/her status in the program and is a reminder of the probation and dismissal policy. Second, it provides a summary of the support available in the department to ensure continued success for the remainder of the program.

Probation
Students may be placed on academic probation for the following reasons:
1. overall GPA falls below a 3.0,
2. student earns a second C during their program,
3. failure to meet competencies in 2 courses by the agreed upon deadline in the signed remediation plan,
4. failure to successfully complete a practicum remediation plan,
5. professional misconduct that is not deemed illegal or in violation of the ASHA Code of Ethics or UC Student Code of Conduct. This may include (but is not limited to) regular, nonresponsive or untimely responsiveness to program/faculty communication; consistent negative interactions with faculty/supervisors/peers; inappropriate use of social media relating to the program, its content, or related professional activity as described in the MA SLP Handbook,
6. violation of classroom and clinic (onsite and offsite) attendance policies: multiple unexcused tardiness; multiple and/or prolonged unexcused absences. For details, please see the department policy below, the MA SLP Handbook, and the Graduate Student Handbook.

Probation Remediation Plans
When a student has met criteria for probation, as described above, the student will receive an email from the Program Director to schedule a meeting between the student and appropriate faculty. These individuals may be the faculty directly involved with the student’s training, off-site practicum supervisor(s), practicum coordinator(s), Clinic Director, Director of Clinical Education and/or Department Chair. The purpose of this meeting is to identify and address the issues that led to being placed on probation. Written documentation of the problem, including criteria for dismissal will be signed by all in attendance (including the student) and will be stored in the student’s CALIPSO account which is available to students. Students who fail to meet the requirements of the remediation plan will result in dismissal from the program.

Terms of Probation

1. Academic/Clinic/Research (items 1-4 above): Students will remain on probation so long as their cumulative GPA is below 3.0. However, students will be allowed to continue in the program as long as earned grades in subsequent graduate-level courses are a B- or higher and progress toward achieving remediation plan goals is documented. Students will not be allowed to move forward in the program until grades have been verified by the Program Director for your cohort and/or the cumulative GPA moves above 3.0. Students should also bear in mind the expectations of professionalism if only on academic probation.

2. Professionalism/Other (items 5-6 above): Students placed on probation for professional misconduct and extended periods of absences, must successfully complete the remediation plan
within the designated time frame and complete a full semester with no additional concerns before probation is lifted.

3. Multiple Probations: Students are allowed 1 probation period; students may be dismissed from the program if s/he meets the eligibility for probation a second time.

Dismissal

Students may be dismissed (with no probationary period) if:

1. grades for any semester, **while on probation**, fall below B-,
2. overall GPA for any specific grading period, **while on probation**, falls below a 3.0 (excluding Incompletes),
3. a third C is earned during the program,
4. a grade of "F" is received in any course,
5. proven academic dishonesty (see Graduate School Handbook),
6. two consecutive practicum placements are not successfully completed despite documented remediation attempts,
7. professional misconduct that is deemed illegal or in violation of the ASHA Code of Ethics or the University of Cincinnati Student Code of Conduct.

When a student meets the criteria for dismissal (with or without probation), a meeting is scheduled between the student and appropriate faculty, Clinic Director, Director of Clinical Education, Practicum Coordinator(s) and/or Department Chair as soon as possible but not more than 3 business days into the new term. The purpose of this meeting is to address the concerns and determine whether extenuating circumstances should be considered prior to dismissal. Written documentation of the problem, including criteria for probation and dismissal will be signed by all in attendance and will be stored in the student’s CALIPSO account. The student has 3 business days to challenge the dismissal in writing to the Program Director and Department Head. Any subsequent meetings are similarly documented. If resolution of the problem cannot be reached, feedback from the faculty involved in the student’s training will be sought and considered. The decision for dismissal is made by majority vote of the entire faculty. The Department Head and Program Director will then have a final meeting with the student, to inform the student about the decision. During this meeting the Chair and Director will provide information about options for further academic (including grievance options) or employment opportunities.

NOTE: Exceptions can be made to the Probation and Dismissal criteria only with a documented medical leave, formal leave of absence, or extenuating circumstances. It is important to note that it may be necessary to extend the program to develop a plan that accommodates the student’s needs (see Graduate School handbook for details and forms).

- **Medical Leave.** The need for a medical leave and subsequent documentation must be provided as soon as reasonable given the situation. Students should contact their Program Director to develop a plan for informing instructors and practicum supervisors about the need for medical leave.
  - Some medical leaves allow for planning (i.e., some surgeries, maternity, etc.), while others do not (i.e., life threatening illness, accidental injury, etc.). Students who have anticipated medical leaves need to alert the Program Director in advance of the leave. In all cases, the student is responsible for updating the Program Director of any changes to the plan (in writing), as soon as possible, to ensure good standing in the Program.
• **Leave of Absence and Extenuating Circumstances.** Under special circumstances, graduate students may apply for leave of absence from formal study at the university for a specific period up to one academic year. Assuming appropriate documentation is provided, the circumstances justifying a leave include but are not limited to personal or family medical conditions, call to active military duty, maternity leave, or death in immediate family. The rationale must be documented by the applicant. If a student has a verified medical leave or extenuating circumstance, a written plan to accommodate the student’s needs will be developed and signed by the student, Program Director, and Department Chair. A copy of this will be kept in the student’s CALIPSO file and provided to the student for reference.

**Appeals**

A student dismissed from the graduate program may file a written petition for readmission (within five business days) with the Program Director and Department Chair. In making a decision regarding readmission, the appeal will be brought to the full faculty for consideration; the decision will be made by majority vote of the entire SLP or AuD faculty. The faculty will consider extenuating circumstances and the probability that the student can successfully complete the academic program with at least the 3.0 GPA required to graduate and all clinical practicum experiences.

**Graduate Student Grievance Procedures**

It is the policy of the University to provide an opportunity for the resolution of disputes involving graduate students in a fair and collegial manner and within the department if possible. These procedures establish a formal process for graduate students to request review and redress of certain grievances arising out of their academic relationships with their departments, colleges, or the University of Cincinnati.

The department of Communication Sciences and Disorders abides by the Graduate School’s Grievance Procedures. Further, students will be fully informed of all decisions affecting their status in the program and have the right to appeal under grievance procedures which can be viewed at the following link: [https://grad.uc.edu/student-life/policies.html](https://grad.uc.edu/student-life/policies.html)

**Clinical Practicum Attendance Policy**

Professionalism is required at all times and attendance is crucial for professionalism. Students are expected to demonstrate the highest level of commitment to clinical practicum and treat it as they would paid employment. The following list details our attendance expectations during clinical experiences.

- Regular attendance is expected without the expectation of any ‘days off’ across all practicum settings for the duration of the graduate program.
- A request for ‘days off’ is reserved for illness or extenuating circumstances ONLY. Extenuating circumstances are defined as illness or matters out of one’s control, (i.e. death of immediate family member).
- A doctor’s excuse must be provided for all illness-related absences.
- Your direct practicum supervisor (the supervisor who will approve your clinical hours and competencies in the setting) is the person to whom your request/notification should be addressed with additional notifications as specified below.
- In addition to contacting your clinical supervisor immediately for illness or in the event of extenuating circumstances, you are required to inform the practicum coordinator (see specifics below per program).
  - All notifications must be made via email and concurrent with notification of the clinical supervisor.
  - For on campus students:
    - you must notify the Director of Clinical Education (Krista Beyrer) of all absences, as well as for medical placements, including Children’s Hospital.
    - if this is a school-based practicum or Head Start, you must also notify the School Coordinator (Lisa Williamson).
For **ACinD and WVa**, notify your Program Director (ACinD- Erin Redle, WVa- Lesley Raisor-Becker) for all absences.

- Attendance should be followed as outlined in practicum commitment form with supervisor.
- Potential approved/excused days off from practicum might include: religious holidays, professional conferences/conventions, and required department activities such as Fluency Friday (spring semester) and PRaISE (spring semester).
- Students may request a single excused absence (1 day) for personal reasons, over the course of the entire graduate program, under the following conditions:
  - Requests of potential 1-day off is made at start date of practicum to site supervisor and is documented in the Practicum Commitment Form
  - In addition, Practicum Coordinator of respective program is notified via email of the request and supervisor’s response (and Director of Clinical Education for on-campus).
  - Program-specific requests (Fluency Friday, PRaISE, professional conferences, etc.) should also be included in Practicum Commitment Form during semester event is to take place.
  - The student is required to make up minutes/days they are absent from practicum, including illness, and make up dates should be determined with the supervisor in the practicum commitment at the beginning of the term or following an absence from illness.

Clinical practicum dates/times are subject to site, may vary site-to-site and may not correlate with course schedule or university breaks. Do not compare your clinical schedule with that of your peers, as they will likely be different. ALWAYS follow the clinic schedule of your practicum site.

Students are allowed a total one day of an anticipated absence (such as might occur for weddings, showers, reunions, etc.) over the course of the graduate program. Use of this one day will not affect your practicum grade. This date(s) should be approved by the Practicum Supervisor of that specific semester, by the 1st day of the semester in which the absence will occur and be included the clinical practicum contract. These days off will not be approved beyond the start of the new term.

- A second absence from practicum during the duration of the graduate program, regardless of the reason, will be considered an unexcused absence and will result in the reduction in that semester’s practicum grade by **one full letter grade**. For example, if you have one unexcused absence in the fall semester and earn an A, you will still have an A for fall. If you have a second unexcused absence in the spring semester and earn an A for practicum spring semester, your final spring semester grade will be a B.

- A third instance of (unexcused) absence (same semester or across the duration of the program) will reduce your practicum grade for that semester by **2 full letter grades**. For example, if you earned an A for the semester, your practicum grade with the third absence will be a C). In addition to the lowered grade, you will automatically be placed on probation due to the violation of our professionalism standards.

- Again, excused absences are illness-related (with physician’s note) and/or extenuating circumstances (death in the immediate family).

If you attempt to negotiate days off or change your practicum schedule (reducing number of days per week, for example) with your supervisor without discussing this with the Director of Graduate Education/Program Director/Schools Coordinator, this will be treated as an example of unprofessional behavior and the consequence will be a reduction in that semester’s practicum grade by 2 full letter grades AND probation. Attendance and professionalism issues will impact your grade and are at the discretion of supervisor/clinical coordinator/director of clinical education.

Students have the following breaks during their graduate program:

### SLP year 1

**Fall** –
- Labor Day
- reading days (class only, clinic attendance is required)
- Veteran's Day (class only, off campus clinic attendance required)
- Thanksgiving Day and following day
- The period between when finals week ends and the first day of spring semester. Outside clinical practicum sites may extend beyond finals week – (NOTE that the schedule of the clinical setting may be different, and you are expected to ALWAYS follow the clinical setting schedule)

**Spring** –
- MLK, Jr. Day
- Spring break week, only if not expected to be at clinical site (follow clinical setting schedule)
- Week between spring and summer semester (outside clinical practicum sites may extend beyond finals week – ALWAYS follow clinical schedule)

**Summer** –
- Memorial Day
- July 4th (Date the University observes- NOTE that this does NOT include the day surrounding the holiday)
- Weeks following finals in August, until Wednesday prior to classes beginning or when clinical setting schedule deems is the start date
  - All students are expected to attend the annual picnic which is always the Thursday before the start of classes in August.

**SLP year 2**

**Fall** –
- ALWAYS follow clinical setting schedule

**Spring** –
- ALWAYS follow clinical setting schedule

**Summer** –
- ALWAYS follow clinical setting schedule

**Professional Liability Insurance**
All students enrolled in the CSD program are covered under UC's Professional Liability Insurance Program during the time they are enrolled in the CSD program. Students are covered if they follow all program requirements, including annual trainings and immunizations.

**Health Care Setting Experiences for SLP Students – on campus**
(Please direct specific questions to Mrs. Krista Beyrer beyrerka@ucmail.uc.edu). See the ACinD and WVA appendices regarding your specific program.

**Eligibility:**
1. Students must be in the second year of the Master's program
2. The following courses must have been successfully completed: Dysphagia; Neurogenic Language Disorders; Neurogenic Speech Disorders; and Neurogenic Cognitive Disorders.

**Interview:**
1. Students must make an appointment for an interview with their supervisor at the assigned health care setting prior to the start of the semester. Please understand that settings may have specific requirements; therefore, contact your future supervisor/practicum placement at least 2 months prior to start date.
2. Students must take the following materials to the interview: resume including education, previous practicum experiences and activities.

**General Healthcare Practicum Requirements:**
1. Students must complete a term of clinical experience in a health care setting.
2. During the healthcare practicum, students are expected to participate in the full range of experiences including patient care, report writing, case conferences, family conferences, interaction with other hospital personnel, etc.

**School Practicum Experiences - on campus**
(Please direct specific questions to Mrs. Lisa Williamson will3lo@ucmail.uc.edu)

**Eligibility:**
1. Students must be in the second year of the Master's program.
2. It is required that students have completed or be taking: Seminar in School Issues. See the ACinD and WVA appendices regarding your specific program.

SPEECH-LANGUAGE PATHOLOGY SCHOOL PRACTICUM EXPERIENCE

The faculty in the Department of Communication Sciences and Disorders considers the Speech-Language Pathology School Practicum Experience a most important one for graduate students. For many of the students, this will be their first opportunity to work full time with a skilled professional in a school setting. Graduate students have received extensive training in communication sciences and disorders, and they welcome the opportunity to utilize and further develop their knowledge and skills under the guidance of their site supervisor.

This handbook contains information and suggestions which are intended to be useful for both students and site supervisors in planning an effective School Practicum Experience. Flexibility within each individual school setting is expected, and site supervisors and students are encouraged to work out a program which will best meet the needs of a particular setting within the framework of the overall SLP School Practicum Experience guidelines. The key to this experience is the opportunity for students to use and develop the skills they will need to be successful as a speech-language pathologist when they enter the profession after receiving their master’s degree.

Conceptual Framework
Speech and language pathology is one of seventeen related programs to teacher preparation on the UC campus. Because we are all responsible for preparing educators, we support the core frame-work defined by its members.

The conceptual framework identified by the University of Cincinnati educator preparation community is to prepare committed, caring and competent educators:

- With foundation knowledge, including knowledge of how individuals learn and develop;
- With content knowledge, able to articulate the central concepts, tools of inquiry, and the structures of their discipline;
- Who successfully collaborate and who demonstrate leadership;
- Who are able to address issues of diversity with equity;
- Who are able to use technology to support their practice; and who use assessment to inform their efforts.

As committed, caring competent educators, we:

- Are concerned about all aspects of an individual’s well-being, assets and need;
- Are dedicated to continuous learning, professional discourse and an enthusiasm for the discipline each of us teaches;
- Support other in our efforts to be resourceful, creative and ready to think on your feet;
- Respect the diverse talents of all learners and recognize developmental differences;
- Share responsibility for establishing and sustaining a positive climate
- Expect students to learn
- Delight in exploration, inquiry, reflection, and self-evaluation.

These are just some of the values and beliefs that guide our practice.

Student Orientation
In order to help the graduate student in speech-language pathology acclimate to the school setting, it would be important for the site supervisor to introduce the student to other staff members, including the school principal and the school secretary. In the first week of the experience, the following activities may be helpful to the student: a tour of the school building(s); providing copies of school handbooks or policies and procedures to read; making available academic content standards, curriculum maps and textbooks; providing copies of
faculty or department newsletters to read; discussing materials and equipment that are available to the student to use; discussing space that is available to the student for storage of his/her materials and personal things; and a general orientation to the speech-language pathology program as it is set-up in a particular school. In addition, the graduate student may also benefit from information concerning extracurricular events at the school(s) such as music programs or sports events so that they can be informed about the school as a whole.

Students should provide a copy of their background checks to the human resource department of your school district. They may need a picture identification badge and an approved password to access the computers. You may need to guide them in these activities.

The graduate students are responsible for informing their site supervisor about their background including areas of strengths and needs in the development of their speech-language pathology skills and their expectations for the School Practicum Experience. Students will provide you with a current resume. Students also have the responsibility to maintain the speech-language pathology program in the manner that the site supervisor directs, remembering that the site supervisor has spent a lot of time setting up and establishing the program and relationships with the faculty at that school. Appropriate and professional dress is expected of the students, using other faculty members’ style of dress as a guideline.

**Workload Considerations**
Taking over the site supervisor’s caseload should be a gradual process with increasing responsibility as the semester proceeds. At first, students are expected to observe their site supervisor conducting therapy sessions and performing assessments in order to become familiar with the students, therapy environment, methods, materials, etc. Naturally, involving the students in this process in some manner is helpful, and students should be able to be directly involved in some way by the end of the first week. Assessment and therapy provide the opportunity for students to develop their skills as do parent or staff meetings about students who are being evaluated or who are already on the site supervisor’s caseload. Most students need evaluation hours as part of their school-based experience and should discuss the needs in this area with their site supervisor. Student involvement in the RTI, ETR and IEP process also provides valuable experience. The site supervisor and the student should discuss the timing of taking over the workload responsibilities at the beginning of the semester and should work toward having the student taking over full responsibility for the caseload during the last few weeks of the semester.

<table>
<thead>
<tr>
<th>Phases</th>
<th>Timeline</th>
<th>Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>Introduction Phase</td>
<td>Weeks 1-2</td>
<td>Observation, participation, Assisting, taking data while Co-Op does therapy. Participate in planning, performing lesson after it has been modeled by Co-Op. Get acquainted with materials and instructional resources. Begin to plan for initial teaching phase.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Assume responsibility for initial teaching of specific groups. Supervisor continues to plan for the majority of the caseload.</td>
</tr>
<tr>
<td>Full Teaching Phase</td>
<td>Weeks 5-14</td>
<td>Gradually assume as much of the full caseload as possible. Supervisor continues to model a few sessions per week.</td>
</tr>
</tbody>
</table>
Students should be encouraged to develop their own style and techniques within the guidelines of the site supervisor, ensuring that a rationale is provided for their ideas. Written lesson plans are expected for each session, including the objectives being addressed and the materials being utilized. Students should also be responsible for taking data and integrating results onto future therapy sessions as appropriate. Students and site supervisors should work closely together to review the therapy plans and outcomes, and the expectations from the site supervisor should be clearly stated to the student. Weekly conferences to discuss ongoing work may be helpful in promoting positive communication where both the student and the site supervisor feel comfortable expressing questions and concerns as needed. Written feedback at the end of a session or the end of a day is very effective and appropriate for the student. Self-reflection on treatment and diagnostics is encouraged.

Students are responsible for keeping track of their clinical clock hours as outlined in the Handbook for Clinical Practicum guidelines. At the end of this semester, the site supervisor should review the clock hours and sign the form including their ASHA certification number. A copy of the tracking form is included in this handbook. ASHA requires a minimum of 25% direct supervision for diagnostic evaluations and therapy. The site supervisor should be on site 100% of the time (see "ABSENCES" section for additional information on this subject.)

**University Supervisor Responsibilities**
The university supervisor will make a 1 or more site visits to each student and their site supervisor. A schedule will be set by the university supervisor after receiving the input from each student and site supervisor, and the chosen dates will be confirmed with the student who will have the responsibility of informing their site supervisor. Changes will be made in the schedule if necessary, and additional site visits can be scheduled if the need arises. PLEASE CONTINUE TO CHECK YOUR UC EMAIL DAILY IN ORDER NOT TO MISS IMPORTANT COMMUNICATIONS!

Generally, the university will observe the student working in the school setting as scheduled, either doing therapy, performing diagnostic evaluation, meeting with staff or parents, etc. At the end of the observation period, some time for discussion of the observation and collaboration with the student and the site supervisor would be helpful. The university supervisor is interested in collaborating on a variety of subjects during these conferences, including questions the student or site supervisor may have, review of forms for evaluations during the semester, sharing comments on specific cases, materials, methods, upcoming in-service opportunities, strengths and challenges, feedback from observation, etc.

**School Practicum Class**
The School Practicum Class will meet before Graduate Seminar at 5:00 p.m. on some of the Tuesdays during the semester (approximately 5). Students may need to leave their school setting a little earlier on these days, and it is the student’s responsibility to inform their site supervisor about these seminar meeting times.

The practicum seminar is designed to allow time for students to exchange ideas, as well as to provide an opportunity for discussion of subjects pertinent to speech-language pathology practices in the school setting. Students are notified of the specific dates and times of these classes at the beginning of each semester. Students that have their practicum site within one hour traveling distance from the University are expected to attend. If you are further than one hour you may watch the streamed class and send back a short 10 question form to prove that you have viewed all sessions. All students must participate weekly in topics posted on Blackboard. If the student is assigned to a part-time practicum over 2 semesters, the student attends the campus classes only the first semester.

**Materials**
Graduate students coming into the school setting may or may not have many materials of their own which they can use for therapy sessions. It is always helpful to students if their site supervisor shares materials or resources.
for materials with the student. Most students appreciate any ideas which site supervisors may have for materials development. Students are encouraged to ask specific questions about choosing materials and using commercially or personally developed materials which site supervisors have found to be effective in their therapy sessions. It is important for them to have access to classroom textbooks, assignments and classroom curriculum.

**Absences**

*SEE ATTENDANCE POLICY! Students are responsible for informing their site AND university supervisor if they are going to be absent that day. They are also responsible for texting or emailing the university supervisor Mrs. Williamson (513-218-5792) the day that is missed. Attendance at conferences, supervisor absences or in-services are not considered absences and are encouraged if the site supervisor and the student think the topics being addressed would be beneficial to the student’s experience. Please understand that there is a required number of hours for school licensure, so you must attend!

If the site supervisor is absent, the student should still attend that day with arrangements being established ahead of time as to what the student should do that day. Site supervisors may wish to discuss the options for student work during any possible absences with their school principal. Possible ideas might be: having the student take over the caseload in the site supervisor’s absence with the okay of the principal and the ability to reach the site supervisor by phone; having the student observe another SLP in the district for the day; having the student observe one or several teachers in the classroom(s) where students who have speech-language IEPs are placed; having the student develop materials for future therapy sessions, etc. A contingency plan for possible site supervisor absences should be discussed at the beginning of the semester during the general orientation time.

**Final Comments**

Working with SLP student teachers can be a very rewarding experience which sometimes results in continuing friendships and renewed interest in varying aspects of the field of speech-language pathology. The role of the site supervisor in a school-based setting cannot be overstated. Many students will go on to successful careers as school-based speech-language pathologists because of the experience they gained under the direction of a dedicated professional who took the time to encourage someone who was new to the profession.

The faculty in the Department of Communication Sciences and Disorders recognizes the value of the role that site supervisors play in the development of the graduate students in our program. The extra time that site supervisors spend in training graduate students makes a difference in the quality of work that students go on to perform in their jobs when they complete their graduate degree. The supervised practice that students get in their school based and other clinical speech-language pathology experiences brings their academic coursework to life. Without these supervised real-life experiences which are made possible by dedicated professionals in the field of speech-language pathology, students would not be as well prepared to enter our profession.
ACinD Program
The following information applies only to students enrolled in the ACinD program. Please direct specific questions to Dr. Erin Redle (creacher@ucmail.uc.edu)

Obtaining Placements
In general, for those outside of the greater Cincinnati area identification of possible practicum placements is helpful. Initial contact with a supervisor may be made by a student using something along the lines of the following suggested language and the ACinD Program Director should be copied on the email. Once the initial contact is made, the ACinD Program Director will facilitate additional follow-up. Students should not discuss practicum with anyone in a school setting they currently work in without a prior discussion with the Program Director.

Suggested Language:
Dear ____________,

My name is _____ and I am a graduate student in the Akron-Cincinnati Distance Learning Collaborative Program (ACinD) through the University of Cincinnati. I am reaching out to you to see if you or someone at your site might consider being a possible clinical supervisor for as I complete my graduate practicum hours. If you would be willing to discuss this further with my Program Director, Dr. Redle (copied on this email), please let me know. I will have her follow-up to discuss details.

Thank you in advance for your time and I look forward to hearing from you.

Best Regards,
NAME, CREDENTIALS

Beginning and Ending Dates of Placements
Beginning and ending dates of placements are generally consistent with the dates of the semester but may be extended due to altered start dates, competency needs, the need for additional hours, or missed days of practicum. Failure to adhere to these dates without prior written approval from the Program Director will result in reduction of the practicum grade by a full letter grade.

Medical Practicums
Medical placements are a minimum of 3 days per week unless otherwise noted.

School Practicums
In order to obtain a teaching license, students must complete 60 practicum days in a school setting. The only options for completing this are 3 days/week across an entire school year or 5 days/week for a full semester. If the 3 days/week option is chosen, students will complete their medical practicum in the preceding or following semester.

Practicum Availability
Although the ACinD program attempts to be flexible to accommodate the needs of students, this is a graduate program and students need to be sufficiently available. Failure to be appropriately available may result in an extension of the program to meet clinical hours.
The following information applies only to students enrolled in the West Virginia program.

Please direct questions to Dr. Lesley Raisor-Becker (raisorlj@ucmail.uc.edu)

**Health Care Setting Experiences**

**Eligibility:**

1. Students will complete their health care experiences during the summers of their second and third year.
2. In order to be eligible for a health care experience, students must have successfully completed their *Neuro Language, Neuro Cog, Voice Disorders*, and *Dysphagia* courses.

**Interview/Phone Conversation:**

1. Students must make an appointment for an interview or phone conversation with their supervisor at the assigned health care setting prior to the start of the semester. Please understand that settings may have specific requirements; therefore, contact your future supervisor/practicum placement as soon as possible.

**Healthcare Practicum:**

1. Students must complete a term of clinical experience in a health care setting.
2. During the healthcare practicum, students are expected to participate in the full range of experiences including patient care, report writing, case conferences, family conferences, interaction with other hospital personnel, etc.
**Professional Behaviors for all clinical practicum settings**

In addition to developing clinical competencies, an important part of the fieldwork experience is the development of professional behaviors. The following qualities have been determined essential to the position of student therapist and reflect the expectations for acceptable performance.

1. **Responsibility** - demonstrates independent initiative and readily assumes responsibility; demonstrates consistent dependability and reliability in fulfilling responsibilities; is conscientious in meeting responsibilities, demonstrating attention to routine responsibilities.
   
a) Ask questions when in doubt.
b) Be punctual in attending meetings and conferences.
c) Recognize and act on personal responsibility for learning during the fieldwork experience (e.g., finding answers to questions, providing feedback to supervisor, utilizing opportunities for observational learning experiences, i.e., other therapists, disciplines).
d) Take initiative to utilize resources (physical resources, personnel, grand rounds).
e) Read student manual the first week so that you are familiar with the information that is in it.

2. **Organizational Skills** - is punctual in fulfilling responsibilities and requirements of the position, including adhering to schedules, meeting deadlines, etc. By mid-term is able to create functional structure in an unstructured environment; is able to establish realistic priorities and set appropriate limits. a) Plan and organize daily schedule for self and for patient treatment, for short- and long-term projects (e.g., preparation for lectures, note writing, preparation for staffing and rounds, discharge planning, and SIP).

3. **Flexibility** - effectively adjusts to changes in schedules, policies, and procedures, patient and student program; is able to adjust priorities according to needs of the program and department and others. a) Develop an attitude of flexibility - expect changes to occur (e.g., changes in lecture schedule, supervision meetings, increase or decrease in patient load, early discharges, or patient schedules). b) Utilize time effectively when a patient’s treatment is canceled. c) Help out and fill in for other therapists. d) Offer assistance to others.

4. **Interpersonal Skills** - is able to establish effective interpersonal relationships with patients and their families, staff members, students, and members of other disciplines; is sensitive to a considerate of others; is able to work and relate effectively with a wide range of diagnoses and disabilities (patients, socioeconomic, age, and ethnic groups (patients, their families, and other personnel).
   
a) Maintain professional relationship with supervisor and others.
b) Regard feedback as a learning tool.
c) Be aware of how your behavior affects others.
d) Consider timing of questions (e.g., when approaching staff).
e) Respect personal space and time of others.
f) Explore situations before responding - make informed interpretations and decisions.

5. **Communication Skills** - shows effective, appropriate (timing content, and method) communication with intra- and extra-departmental personnel at all levels; oral and written professional communication should reflect the standards established for the department; communication at all levels should be appropriate in timing, open and direct; important for staff to independently initiate communication whenever the need and to maintain consistent feedback to appropriate personnel; discretion and confidentiality; open lines of communication should be maintained with the chief occupational therapist and supervisor at all times.
   
a) Expect and respect differences in professional opinions. Open-mindedness allows opportunity to explore different theories and techniques of management (e.g. doctors’ goal and plan may differ from your own). You are part of a team; consider the goals of other disciplines when planning your treatment program for the patient.
b) Be aware of nonverbal behavior, tone of voice, etc., and the effect these can have upon your relationships with others.
c) Take time to organize your thoughts and make notes before reporting in conferences or contacting other disciplines and doctors.
d) Follow established guidelines and documentation standards for note writing.

6. **Concern for Professional Development** - is receptive to guidance and regards constructive feedback as a learning tool; actively assesses, recognizes, and expresses personal needs for further professional development; demonstrates interest and actively participates in continuing education activities; is willing to share professional knowledge and experience with others.
   
a) Assume responsibility for learning.
b) Be resourceful in finding answers to your questions.
c) Actively seek learning experiences (e.g., versus only utilizing scheduled experiences rounds).
d) Realize that as a student therapist you have valuable information and experiences to share with others. Be willing to share information, offer suggestions for SLP and student programs, procedures, equipment, etc.

7. **Problem-Solving Abilities** - demonstrates effective problem-solving skills in approach to patient treatment, and overall functioning within department; readily identifies and communicates problems impacting upon patient care and department functioning to appropriate individuals; maintains an open, objective attitude in assessing and confronting problem situations;
appropriate acts upon decisions and maintains communication and effective follow-up and feedback.
- Be resourceful. Use common sense and think things through before asking someone else for the answer.
- Utilize resources to help find answers to questions and suggestions for patient treatment.
- Utilize student manual.
- Recognize and act on need to contact other disciplines.
- Make yourself aware of material resources available in the unit.

7. Sense of Humor.

8. Supervisory Skills - with experiences, demonstrates those skills essential to the guidance of aides, volunteers, and other ancillary staff (e.g., in patient treatment, group activities, clerical work requests). a) Interpersonal skills - respectful approach when working with secretaries, aides, transporters.

9. Demonstrates a commitment to the growth and development of the department’s programs and the support of its staff and students. Offers constructive, diplomatic suggestions for change beneficial to the department in all areas of its functioning.

10. Remember that you are a representative of the department and the profession. Through personal demonstration of professional attitudes and appearance, support and contribute to the professional image of the department.

Suggestions for Students:
An important part of the fieldwork experience is the opportunity to actively pursue the development and practice of professional qualities and behaviors attributable to a mature therapist. Such qualities would include personal initiative, punctuality, responsibility and resourcefulness, dependability, the ability to relate openly and effectively on a professional level, etc. Although your supervisor and other staff members may provide guidance and direction in this area of professional development, you must assume the primary responsibility for professional behavior. Below are some “helpful hints” as to how this responsibility might be independently assumed and reflected early and throughout your affiliation.

1. Communication is the most critical essential. Initiate and maintain open, honest, communication with your supervisor: • Provide feedback to your supervisor about the nature, quantity, quality, of supervision time. You must assess your needs and openly share them with your supervisor.
- Let your supervisor know your interests and goals/expectations. Clarify performance expectations with your supervisor - if you are unclear, ask.
- If you feel you are not getting enough feedback, let your supervisor know.
- If you feel you need to observe more or to be observed in patient treatment, let your supervisor know.
- If you have a question or doubt in your mind, try whenever possible to take the initiative to find the answer for yourself. However, never hesitate to utilize staff members as resources.

2. Independently take the initiative and time early in your affiliation to familiarize yourself with your unit’s organization and available resources. It is important to take time to find out where things are kept during the first week. Schedule time to look through cabinets, file drawers, bookcases, etc., and see what is available. If you don’t schedule specific time to do this, you may find that a “convenient” time will never come. Becoming familiar with the unit, its supplies, and equipment will prevent you from having to keep asking where equipment is kept. If you are uncertain about the use or purpose of any equipment, always ask and familiarize yourself with it.

3. Learn how to effectively plan and utilize your time.
- Make out a schedule for each day; include lectures, meetings, and supervision times in addition to patient treatment.
- Know your work requirements and set target dates for timely completion. Don’t wait until the last minute to get things done. You will not be continually reminded or prodded once deadline have been established.
- Utilize your “spare” time appropriately, i.e., for reading, writing notes; developing patient’s treatment programs; observing treatment. Feel free to help out in the unit – ask what you can do to help if you cannot readily identify what the need may be. Don’t get behind in note-writing. The amount of paperwork and documentation requirements is great; now is the time to develop personal discipline in fulfilling responsibilities in this area on a timely basis.

4. Procedures for routine, day-to-day treatment and departmental responsibilities should be established as a habit as quickly as possible. If you are still confused after the first week, let your supervisor know. Use your school practicum manual and website resources - they are filled with information concerning performance expectations, departmental policies and procedures, and information regarding patient care. Use it as an ongoing reference as questions arise.

5. Suggestions for treatment planning:
- Observe other therapists and keep a list of media/techniques they can use. This can be helpful resource during treatment planning.
- Write a list of treatment goals (brainstorm). When writing treatment plans refer to this list, it will help you to be comprehensive.
• In the beginning, prepare a list of treatment media or evaluations for each treatment session. Be sure to include alternatives in case equipment is not available. If you have any questions on specific technique or evaluation, ask your supervisor to go through the procedure with you before you treat the patient. Although this takes extra preparation time, it can greatly increase your self-confidence during treatment.

SECTION III

PRACTICUM FORMS
Appendix A

The student is responsible for completing the following forms. Students should make copies of ALL practicum paperwork.

Essential Functions

CSD Immunization Record/MedProctor Form

Practicum Commitment Form

Student Teaching Licensure Required Form – Calendar 2018-19

Confidentiality Statement

Remediation/Action Plan

Record of Observation Experience (Observation Hours)

All observation clock hours accumulated by the student clinician are to be recorded with the ASHA supervisor signature on the clinical Observation Form.

Clinical Hours Tracking Sheet

CALIPSO – Performance Evaluation and Supervisor Feedback Form

Clinical education documentation is managed via a web-based program called CALIPSO. Students can access CALIPSO by going to www.calipso.com/uc. You will receive step-by-step instructions on how to register during student orientation at the beginning of your first year of graduate study.

In CALIPSO you will post your clinical hours throughout the semester and your supervisor will approve them. Your supervisor will complete a performance evaluation at the end of the semester. There is also the capacity for a midterm evaluation which helps determine your progress in practicum and whether or not there is a need for a remediation plan. The action plan form and outcome are included in this manual. You will also complete a supervisor feedback form at the end of the semester. The on-campus practicum coordinator will review this form and submit to your supervisor for his/her records.

In addition to tracking clinical hours through the CALIPSO system, students will be required to upload personal, required program documentation, such as immunization form. Program Coordinator will monitor for compliance.
Introduction

The Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the American Speech-Language-Hearing Association (ASHA) accredits the University of Cincinnati’s Master’s program in SLP and the Clinical Doctoral program in Audiology. Graduate degrees in audiology (AuD) and speech language pathology (SLP) require that students acquire general knowledge and skills across a wide range of applicable domains in communication sciences and disorders. Essential functions in areas of communication, physical/motor, intellectual/cognitive, sensory/observational, and behavioral/social and professionalism are required to competently integrate clinical and academic skills. Through classroom and clinical experiences, students will assimilate their knowledge of assessment and treatment techniques in preparation to become critical thinkers and independent clinicians.

Policy

Admission and retention decisions are based not only on satisfactory prior and ongoing academic achievement but also on non-academic factors that ensure that the candidate can meet the essential functions of the clinical program required for graduation. It is important that persons admitted and retained in our graduate programs possess the intelligence, integrity, compassion, humanitarian concern, and physical and emotional capacity necessary to practice in the professions of speech-language pathology and/or audiology. Factors related to a student’s ability to perform the essential job functions in speech-language pathology and audiology also play a critical role in the requirements for graduation.

Prior Disclosure

If the student is aware of an issue that would prevent meeting any of the essential functions, it is the student’s personal responsibility to notify the Graduate program director prior to acceptance of the offer of admission into the program. This is to confirm that reasonable accommodations can be made to ensure academic and professional success in the field of Speech-Language Pathology or Audiology. Many skills can be learned and developed during the course of the graduate program through coursework and clinical experience. The starred (*) Essential Functions however, are skills that are most inherent and should be present when a student begins the program.

Essential Functions

Essential functions are the basic job duties that a student in training must be able to perform, with or without reasonable accommodations (Equal Employment Opportunity Commission, 2008). To provide quality services across a wide range of disorders and ages, students in our clinical graduate programs must have fundamental skills and characteristics in six areas: communication, motor, intellectual-cognitive, sensory-observational, behavioral-social, and professionalism. These essential skills allow a student to meet the professional requirements of state and national licensing and credentialing agencies. A number of these skills can be learned and developed through graduate coursework and clinical experiences, however, the items marked with a star (*) are intrinsic characteristics that should be present prior to a student beginning a CSD graduate program. Graduate students who do not maintain or meet the Essential Functions listed below may have limited or different practicum placements, protracted program duration, or will be unable to remain in the graduate program.

Accommodation Statement

The University of Cincinnati is committed to providing equal educational access for students with disabilities in accordance with Section 504 of
the Rehabilitation Act of 1973 and the Americans with Disabilities Act Amendment Act (ADAA) of 2008. Students with disabilities who need academic accommodations or other specialized services should contact Accessibility Resources. http://www.uc.edu/aess/disability.html. Documentation of disability is required as well as the completion of a Student Self-Report (SSR). Accessibility Resources will review both documentation and the SSR and engage in an interactive process with each student to determine reasonable accommodations to address their individual disability related needs as well as provide advocacy assistance on disability-related issues. In some cases, consultation and collaboration with CSD faculty and/or program staff may be required to determine the most appropriate and reasonable accommodation to meet the requirement of the program or within a clinical placement. Accommodations will be provided which allows for equal participation but do not fundamentally alter the educational or academic standards of the CSD program.

**Definition of Reasonable Accommodation**

“Reasonable accommodations are made in order to level the playing field for qualified individuals with disabilities. As much as possible, accommodations are designed to minimize the functional limitations of an individual in a given task. These adjustments permit students with disabilities the opportunity to learn by removing barriers that do not compromise academic standards. Thus, wherever possible, the disability is minimized as a measure of performance in the academic environment. This is typically accomplished with services or strategies focused on the end result rather than the means by which that result is customarily achieved. The ADA assumes that people with disabilities have contributions to make and that they have every right to attend colleges and universities -- regardless of whether they have a disability. Thus, access means empowering students with disabilities to take better control of their academic environment, permitting them to demonstrate their skill and knowledge. It also expects, however, that they can meet the academic standards with appropriate accommodations.”- UC Accessibility Resources: http://www.uc.edu/content/dam/uc/aess/docs/disabilityservices/Parent%20Guide%20to%20DSO.pdf

**Standard Essential Functions**

**Communication**

UC CSD is in agreement with ASHA’s 1998 position statement below:

"It is the position of the American Speech-Language-Hearing Association (ASHA) that students and professionals in communication sciences and disorders who speak with accents and/or dialects can effectively provide speech, language, and audiological services to persons with communication disorders as long as they have the expected level of knowledge in normal and disordered communication, the expected level of diagnostic and clinical case management skills, and if modeling is necessary, are able to model the target phoneme, grammatical feature, or other aspect of speech and language that characterizes the client's particular problem."

With or without reasonable accommodations, prospective and current students must possess and demonstrate adequate communication skills to:

- Communicate proficiently in both oral and written English language. Students who speak English with accents and nonstandard dialects must be capable of modeling “the target phonemes, grammatical features or other aspects of speech and language that characterize the client’s particular problem.” (ASHA Technical Report, 1998).*
- Perceive and demonstrate appropriate verbal and nonverbal communication effectively and intelligibly in one-on-one and group settings in academic, community and clinical environments (e.g. telephone, email, etc.).*
- Modify communication style to meet the communication needs of clients, caregivers and other persons served with relevance, respect and cultural sensitivity.
- Communicate in writing professionally, effectively, legibly and on time in accordance with setting requirements on clinical documentation, reports, and scholarly papers required as a part of course work and professional practice. (e.g., medical records, standardized assessments, transcription, clinical reports, etc.).

**Physical/Motor**

With or without reasonable accommodations, prospective and current students must possess and demonstrate adequate physical and motor skills to:

- Access transportation to clinical and academic placements.*
• Sustain the necessary level of physical activity for participation in classroom and clinical activities. These activities may include transitioning between standing, chair and/or floor for the defined workday and possibly for long periods of time (up to 10-hour days in certain settings).*
• Negotiate patient/client care environments, and be able to move between settings such as the classroom, health care facility, educational, or community settings (access elevators, stairs, buildings).*
• Provide a safe environment for others in responding quickly to emergency situations (e.g., fire, choking, etc.) and in application of universal precautions (e.g., standardized approach to infection control). *
• Manipulate testing and treatment environment as well as evaluation and intervention materials, including completion of all academic and client-related forms and paperwork (e.g., lesson plans, data collection forms, SOAP notes, reports) without violation of testing protocol and with best therapeutic practice.
• Access technology for clinical management (e.g., billing, charting, therapy programs, etc.), diagnostic testing and treatment protocols.
• Manipulate patient-utilized equipment (e.g. not limited to durable medical equipment to include AAC devices, hearing aids, etc.) in a safe and effective manner. *

**Intellectual/Cognitive**

With or without reasonable accommodations, prospective and current students must possess and demonstrate adequate intellectual and cognitive skills to:

• Demonstrate the mental capacity to comprehend, retain, integrate, synthesize, and infer written and verbal professional literature and reports sufficiently to meet curricular and clinical demands. *
• Identify significant findings from history, evaluation, and data to formulate a diagnosis and develop a treatment plan.
• Analyze, synthesize, apply and interpret ideas and concepts, in academic and clinical settings, through verbal and written expression.
• Demonstrate the ability to attend, initiate, solve problems, reason, and make sound clinical judgments in patient assessment, diagnostic and therapeutic plan and implementation. *
• Self-evaluate, identify, and communicate limits of one’s own knowledge and skill to an appropriate professional level.
• Identify and utilize resources to increase knowledge.
• Demonstrate adequate executive functions, such as organization, scheduling and prioritizing activities, and providing documentation in a timely manner.

**Sensory/Observational**

With or without reasonable accommodations, prospective and current students must possess and demonstrate adequate sensory skills of vision, hearing, touch and smell to:

• Visually and auditorily identify normal and disordered fluency, articulation and verbal intelligibility, voice, resonance, respiration characteristics, oral and written language in the areas of semantics, pragmatics, syntax, morphology and phonology, hearing and balance disorders, swallowing, cognition, and social interaction related to communication. *
• Identify the need for alternative modalities of communication.
• Visualize, identify and discriminate anatomic structures and function during real time/live examinations and imaging tests (e.g., MBSS, FEES, etc.).
• Demonstrate the ability to discriminate correct production of phonemes; speak and write using English vocabulary, grammatical forms, and prosodic patterns. *
• Discriminate text, numbers, tables, and graphs associated with diagnostic instruments and tests.
• Recognize when a patient’s family does or does not understand the clinician’s written and/or verbal communication and modify communication style to meet the communication needs of clients, caregivers and other persons served with relevance, respect and cultural sensitivity.
• Accurately monitor and manipulate equipment displays and controls, including those of hearing instruments, used for assessment and treatment of clients.

**Behavioral/Social**

With or without reasonable accommodations, prospective and current students must possess and demonstrate adequate behavioral and social skills to:
• Demonstrate emotional stability and mental health necessary to promptly complete responsibilities and to develop appropriate relationships with faculty, supervisors, staff, peers, clients, parents or caregivers, and other professionals. *
• Maintain composure and emotional stability in demanding situations. *
• Recognize and show respect for individuals with disabilities and for individuals of different ages, genders, race, religions, sexual orientation, and cultural and socioeconomic backgrounds. *
• Conduct oneself in an ethical and legal manner, upholding the ASHA/American Academy of Audiology (AAA) Code of Ethics and University and federal privacy policies (e.g. HIPAA, ADA, FERPA). *
• Maintain general physical and mental health and self-care, including immunizations and medical documentation, to uphold the health and safety of self and others in the academic and clinical settings. *
• Maintain appropriate professional behavior including punctuality, regular attendance, maintaining client confidentiality, and completing all duties and assignments pursuant to one’s academic plan. *
• Adapt to changing and demanding environments (which includes maintaining both professional demeanor and emotional health). *
• Understand and respect faculty, supervisor and co-worker authority. *
• Accept and act upon feedback and constructive criticism from faculty and supervisors by modifying behaviors.
• Dress appropriately and professionally according to written policy of university and all other clinical/educational settings. *
• Demonstrate a positive attitude and reflect positively upon SLP/Audio disciplines. *

Communication Screening

Each entering graduate student will undergo a communication screening prior to the first week of classes. These screenings are not comprehensive of all essential functions that are required of the student to meet the professional requirements of state and national licensing and credentialing agencies. These screenings are meant to provide awareness of potential communication disorder(s) with the expectation the student will seek appropriate remediation and/or accommodation.

Essential Functions Remediation Plan Statement

If a faculty member or clinical supervisor observes concerns with a graduate student’s professional demeanor or Essential Functions, he or she will first address the concern directly with the student. The student will be advised regarding appropriate ways to improve the concern(s) and be notified that a written record will be filed with his or her program director. If a student has repeated issues demonstrating the outlined essential functions, a formal remediation plan will be developed for the student. The remediation plan will include measurable goals to be achieved in a specified time. If the student does not meet the goals as detailed on the remediation plan in the time frame outlined, the student may be placed on formal probation with the possibility of dismissal from the program.

Initial the appropriate statement below:

_____ I am verifying that I have read the above Essential Functions document. I understand all the skills listed and to the best of my knowledge can perform the functions named. I understand that these essential functions are necessary to complete a clinical graduate degree in speech-language pathology or audiology and if not demonstrated may result in the need for academic/clinical assistance or even dismissal from the program.

_____ I am verifying that I have read the above Essential Functions document. However, at this time there are functions I do not understand, may not meet, and/or may require accommodations to meet. I understand that it is my responsibility, prior to enrollment, to contact the graduate program director of my program to further discuss my questions or concerns as an inability to demonstrate these skills may result in the need for academic/clinical assistance or even dismissal from the program.

<tr>
<td>Hours each day</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>End day/date:</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

*hours must be flexible based on daily needs of clinical placement

2. The student will maintain the days/hours specified above through finals week each semester of the graduate program and potentially longer, **per site/supervisor specifics**.

3. **Regular attendance is expected.** Read and initial below.
   - I understand that attendance and professionalism will impact my grade and is at the discretion of supervisor/practicum coordinator/Director of Clinical Education.
   - Potential days off from practicum might include: religious holidays, professional conferences/conventions, and required department activities such as Fluency Friday (spring semester), and PRAISE (spring semester).
   - A request for ‘days off” is reserved for illness or extenuating circumstances ONLY, such as a death in the student’s immediate family.
   - A doctor’s excuse must be provided for all illness-related absences.
   - Your direct practicum supervisor (the supervisor who will approve your clinical hours and competencies in the setting) is the person to whom your request/notification or extenuating event should be addressed with additional notifications to practicum coordinator of your program and Director of Clinical Education for on-campus programs.
   - The student is required to make up minutes/days they are absent from practicum, including illness, and will be negotiated with supervisor in the practicum commitment at the beginning of the term or following an absence from illness.
   - Clinical practicum dates/times are subject to site, may vary site-to-site and may not correlate with course schedule or university breaks.
I have read the Essential Requirements document and the Code of Ethics and will be held accountable and will follow these guidelines and principles.
Please list known obligation or conflict with schedule designated above in #1 and #2.

4. The student will follow all rules of confidentiality as they pertain to clients and clients’ families and facility rules and regulations.

5. Therapy plans, evaluations, and other reports must be submitted by deadlines specified by the site supervisor: ____________________________

6. The student will participate in at least_________________ of directed observation before he/she begins to provide clinical services (up to a maximum of________________).

7. The student will comply with all policies and procedures of the practicum site and in accordance with the clinical/school practicum manual(s) at the University of Cincinnati.

If at any time in the first 4 weeks of the term the supervisor feels that the student is not progressing toward independence at the practicum site, the practicum coordinator should be contacted to discuss a plan of action.

The on-site supervisor has agreed to the following guidelines:
1. The supervisor will have primary responsibility for coordination and supervision of the student’s professional work at this site.

2. The supervisor recognizes and agrees to abide by the observation requirements set by ASHA; supervision of a minimum of 25% of client contact time for therapy and diagnostic evaluations.

3. The supervisor and student will have conferences scheduled at least_________________.

4. The supervisor will share the evaluation of the student’s performance with the student and Practicum Coordinator.
The Practicum Coordinator will make____ visit(s) to the practicum site during the quarter.

</tbody>
</table>

2. The student will maintain the days/hours specified above through finals week each semester of the graduate program and potentially longer, per site/supervisor specifics.

3. Regular attendance is expected. Read and initial below.
   _____ I understand that attendance and professionalism will impact my grade and is at the discretion of supervisor/clinical coordinator.
   _____ Potential days off from practicum might include: religious holidays, professional conferences/conventions, and required department activities such as Fluency Friday (spring semester), and PRAISE (spring semester).
   _____ Please be aware that student teachers are required to attend professional development, conferences, staff meetings and inservices UNLESS you feel that they would not be beneficial to their professional development (such as meetings to discuss the caseload for the following year).
_____Potential days off must be negotiated with supervisor at practicum start date and UC site coordinator(s) must be notified of day(s) off **for any reason.**

_____The student is required to make up minutes/days they are absent from practicum, including illness, and will be negotiated with supervisor in the practicum commitment at the beginning of the term or following an absence from illness.

_____Clinical practicum dates/times are subject to site, may vary site-to-site and may not correlate with course schedule or university breaks.

_____I have read the Essential Requirements document and the Code of Ethics and will be held accountable and will follow these guidelines and principles.

**Please list known obligations or conflicts with schedule designated above in #1 and #2:**

---

4. The student will follow all rules of confidentiality as they pertain to clients and clients’ families.

5. Therapy plans, evaluations, and other reports must be submitted by deadlines specified by the site supervisor. ALL STUDENT TEACHERS MUST WRITE LESSON PLANS IN SOME FORM WHICH MUST INCLUDE AT LEAST: Objectives targeted and activity.

6. See suggested timeline at the end of this document for how to phase in your student teacher. Please give your student teacher **written feedback at least one time per week** through midterm to help them with their skills. We would appreciate that you continue to model some therapy sessions all through the semester. This helps our students learn best.

7. The student will comply with all policies and procedures of the practicum site and in accordance with the clinical/school practicum manual(s) at the University of Cincinnati. **If at any time in the first five weeks of the term, the supervisor feels that the student is not progressing towards independence at the practicum site, the practicum coordinator should be contacted to discuss a plan of action. The on-site supervisor has agreed to the following guidelines:**

1. The supervisor will have primary responsibility for coordination and supervision of the student’s professional work at this site.

2. The supervisor recognizes and agrees to abide by the observation requirements set by ASHA; supervision at a **minimum** of 25% of client contact time for therapy and diagnostic evaluations.

3. The supervisor and student will have conferences scheduled at least_______________

---

4. The supervisor will share the evaluation of the student’s performance with the student and Practicum Coordinator.

5. The Practicum Coordinator will make 1 visit to the practicum site during the semester unless issues arise with placement. In this case additional visits will be made by the UC School Practicum Coordinator. If an issue arises with the student teacher, then an intervention action plan will be written for the student teacher to follow and the CSD Department Chair and Practicum Coordinator will be notified of this plan.

6. Please attach a copy of the district calendar which would specify school vacations and in-service days.

7. Also please attach a copy of the supervisor’s ASHA card.
8. Please bring this completed form to your first school practicum class.

Student Teaching Licensure Required Form- 2018-19

Graduate Clinician: 

School Supervisor: 

Circle: Fall Semester 
Spring Semester 

This is the form that you will fill out as you are student teaching to prove the number of days that you were present for student teaching. Please cross out any days missed due to supervisor absence, graduate student absence, vacation days/holidays or for any other reason that you did not attend school. Please count the number of days that you attended school, fill in that number of days and then you and your supervisor sign this form. Please upload this form to CALIPSO so that I can confirm that you qualify for school licensure.

Signatures for Plan of Action DECISION:

Student _______________________________________________________________________________

Practicum Supervisor(s) ________________________________________________________________

Director of Clinical Education/Program Director/Practicum Coordinator(s)________________

Date signed: ____________
Clinical Practicum Remediation/Action Plan Guidelines

Students enrolled in practicum during their first or second year will need to achieve competency levels (of 3 and 4’s respectively) in each disorder area and in professional codes of conduct.

Students enrolled in practicum during their second year must achieve competencies at a 3.5 – 4.0 level in the nine areas of disorder types reflected on the CALIPSO performance evaluation form. Competencies are achieved in the areas which reflect their current patient load. At the end of each semester, their competencies will be assessed, and competency needs reviewed to achieve all 3.5-4.0’s by the time of graduation.

If a supervisor feels that, at any time, a student is not moving toward independence in his/her practicum setting, she or he will contact the University practicum coordinator(s) who will meet with the supervisor and student to develop an Action/Remedial plan. All will agree to the plan and its consequences and sign the form. This form plus any additional documentation regarding outcome will be placed in the student’s CALIPSO account under Clinical Placement. If the student is unable to achieve the action steps at the end of the semester, they will not pass competencies for that practicum site. Specific clinical hours may be earned depending on the circumstances and agreed upon by the supervisor/university practicum coordinator. Students may be required to extend their practicum to meet competency levels or perform practicum at another site. Another plan or course of action may need to be developed depending on specific circumstances.

If a student has not met competencies at a site, they will be placed on practicum probation for the following semester which requires successful fulfillment of the remediation/action plan. If a student receives an action plan at two sites and is not successful in gaining the needed competencies, practicum will be terminated. The supervisor and student will meet throughout the action plan process and the student will be notified when all steps have been completed satisfactorily. See academic/probation/dismissal policy of Clinical Practicum Handbook for specifics.

RE: University of Cincinnati Medical Professional Liability Insurance Program

To Whom It May Concern:

The University of Cincinnati, through its Office of Risk Management and Insurance, maintains a comprehensive program of self-insurance and commercially purchased insurance, covering property, casualty and liability exposures to the University and its employees, agents, and volunteers, while acting on the University’s behalf. Students are covered under this program for Professional (patient care) liability only, while engaged in clinical rotations at the request or direction of the University through a health care education program.

The primary level of insurance for general and professional (patient care) liability is provided through a self-insurance program, consisting of trust funds maintained by an independent trustee and actuarially supported to liability limits of $100,000 per occurrence for general liability and $4 Million per occurrence for professional liability. The funds financial soundness is reviewed and certified annually by an outside actuarial firm.

We also participate in a self-insurance program among several state universities in Ohio for automobile liability and general liability coverage’s. In addition, commercially purchased excess insurance is provided above the primary liability insurance coverages with limits of $15 Million and higher depending on the type of claim. However, because the primary level of coverage is through self-insurance, there is no “Certificate of Insurance” for this coverage, and additional insured parties cannot be named.

Worker’s Compensation insurance for University employees is provided through the state fund. We have been assigned a “Worker’s Compensation Risk Number”, however, there is not a “certificate” for that coverage.

If there are any further questions, please feel free to contact the University of Cincinnati Department of Enterprise Risk Management at 513-558-5042.

Sincerely,

Anita Ingram, ARM, MBA, MTS
Assistant VP/Chief Risk Officer

By entering the student's name, I verify that this evaluation has been reviewed and discussed with the student prior to final submission.

Student name: Date reviewed:

I verify that this evaluation is being submitted by the assigned clinical supervisor and that I have supervised the above-named student.

*Supervisor name: *Date completed:

Final submission (if this box is checked, no more changes will be allowed!)

Standards referenced herein are those contained in the Membership and Certification Handbook of the American Speech-Language-Hearing Association. Readers are directed to the ASHA Web site to access the standards in their entirety.

Supervisor Feedback Form

* Supervisor:
* Site:
* Semester:

1. Provided an orientation to the facility and caseload.
   - N/A
   - No orientation provided. Student oriented him/herself.
   - Informal orientation provided.
   - Formal orientation provided with supplemental documentation.

2. Provided the student with feedback regarding the skills used in diagnostics.
   - N/A
   - Comments were vague; and therefore, difficult to apply.
   - Comments were useful but lacked specifics or concrete examples.
   - Comments were useful, specific, and constructive.

3. Provided the student with feedback regarding the skills used in interviewing.
   - N/A
   - Comments were vague; and therefore, difficult to apply.
   - Comments were useful but lacked specifics or concrete examples.
   - Comments were useful, specific, and constructive.

4. Provided the student with feedback regarding the skills used in conferences.
   - N/A
   - Comments were vague; and therefore, difficult to apply.
   - Comments were useful but lacked specifics or concrete examples.
   - Comments were useful, specific, and constructive.

5. Provided the student with feedback regarding the skills used in behavioral management.
   - N/A
   - Comments were vague; and therefore, difficult to apply.
   - Comments were useful but lacked specifics or concrete examples.
   - Comments were useful, specific, and constructive.

6. Provided the student with feedback regarding the skills used in therapy.
   - N/A
   - Comments were vague; and therefore, difficult to apply.
   - Comments were useful but lacked specifics or concrete examples.
   - Comments were useful, specific, and constructive.

7. Provided the student with feedback regarding his/her selection of diagnostic or therapy materials.
   - N/A
   - Comments were vague; and therefore, difficult to apply.
   - Comments were useful but lacked specifics or concrete examples.
   - Comments were useful, specific, and constructive.

8. Explained and/or demonstrated clinical procedures to assist student in clinical skills development.
   - N/A
   - Provided minimal explanations and/or demonstrations.
   - Provided adequate explanations and/or demonstrations when requested.
   - Provided thorough explanations and/or demonstrations for all clinical procedures.

   - N/A
   - Rarely referenced current literature.
   - Occasionally referenced current literature.
   - Frequently referenced current literature.

10. Encouraged student independence and creativity.
    - N/A
    - Minimally receptive to
● Somewhat receptive to new ideas and differing techniques but did not encourage them.

● Very receptive to new ideas and encouraged use of own techniques.
11. Provided positive reinforcement of student’s successes and efforts.

N/A
- Occasionally commented on successes and efforts.
- Frequently commented on successes and efforts.

12. Provided student with written and/or verbal recommendations for improvement.

N/A
- Occasionally provided written and/or verbal recommendations except on midterm and final evaluations.
- Systematically provided written and/or verbal recommendations in addition to the midterm and final evaluations.

13. Demonstrated enthusiasm and interest in the profession and in providing clinical services.

N/A
- Enthusiasm and interest rarely observed; frequent negative comments.
- Enthusiasm and interest occasionally observed; occasional negative comments.
- Enthusiasm and interest regularly observed; frequent positive and optimistic comments.

14. Demonstrated effective interpersonal communication with student.

N/A
- Seemed uninterested and/or unwilling to listen or respond to student’s needs.
- Some interest in student’s needs shown, but communication lacked sensitivity.
- Aware of and sensitive to student’s needs; open and effective communication.

15. Receptive to questions.

N/A
- Unwilling to take time to answer questions.
- Answered questions inconsistently.
- Answered questions with helpful information or additional resources which encouraged me to think for myself.

16. Available to me when I requested assistance.

N/A
- Supervisor was rarely available.
- Supervisor was occasionally available.
- Supervisor was always available.

17. Utilized effective organizational and management skills.

N/A
- Rarely organized; showed difficulty balancing supervisory and clinical responsibilities.
- Somewhat organized; balanced supervisory and clinical responsibilities with little difficulty.
- Always organized; balanced supervisory and clinical responsibilities with ease.

18. Referred me to or provided me with additional resources (materials, articles, video tapes, etc.)

N/A
- Provided minimal or no additional resources.
- Provided helpful resources upon student request.
- Provided helpful resources without student request.

19. Realistically demanding of me as a student intern.

N/A
- Expectations were either too high or too low for level of experience with no attempts to adjust.
- Expectations were generally appropriate for my level of experience.
- Expectations were individualized and adjusted according to my strengths and weaknesses.

Overall, how would you rate this clinical experience?

Additional comments?

What experience during this practicum provided you with the greatest learning opportunity?
Step 1: Register as a Student User on CALIPSO

- Before registering, have available the PIN provided by your Clinical Coordinator via e-mail.
- Go to https://www.calipsoclient.com/xxx
- Click on the “Student” registration link located below the login button.
- Complete the requested information, being sure to enter your “school” e-mail address, and record your password in a secure location. Click “Register Account.”
- Please note: **PIN numbers are valid for 40 days.** Contact your Clinical Coordinator for a new PIN if 40 days has lapsed since receiving the registration e-mail.

Step 2: Login to CALIPSO

- To login, go to https://www.calipsoclient.com/xxx and login to CALIPSO using your school e-mail and **password that you created for yourself during the registration process (step one.)**
- Upon logging in for the first time, you will be prompted to pay the student fee and to provide consent for the release of information to clinical practicum sites.

Step 3: Enter Contact Information

- Click on “Student Information”
- Click on “Contact Info” and then “Edit” for each corresponding address.
- Enter your local, permanent, and emergency contact info. Enter “rotation” contact info when on externships. Return to this link to update as necessary.
- Click “Home” located within the blue stripe to return to the home page.
Step 4: View Immunization and Compliance Records

- Before each semester, click on “Student Information” and then “Compliance/Immunizations” to view a record of compliance and immunization records.
- Missing or expired records are highlighted in red.
- To create a document to save and/or print, click “PDF” located within the blue stripe.
- An electronic file of the original documents can be accessed, if uploaded by the Clinical Coordinator, by clicking “Files” located within the blue stripe.
- Click “Home” located within the blue stripe to return to the home page.

Step 5: View/Upload Clinical Placement Files

- The file management feature allows you to upload any type of file (e.g. Word, PDF, JPEG, audio/video) to share with your clinical supervisor or clinical administrator.
- Click on “Student Information” and then “Clinical Placement” to upload your own file and/or view a file uploaded by your supervisor or clinical administrator.
- **First, select a folder by clicking on the folder name or create a new folder or subfolder.** To create a new folder or subfolder, type in desired folder name in the "Add folder" field and press "create."
- **Upload a file** by pressing the “Browse” button, selecting a file, completing the requested fields, and clicking "upload." The upload fields will display if you have selected an unrestricted folder. **Set the file permission** by choosing “public” for supervisor and clinical administrator access or “private” for clinical administrator access only.
- **Move files** by dragging and dropping from one folder to another.
- **Rename folders** by clicking the "rename" link to the right of the folder name.
- **Delete files** by clicking the “delete” button next to the file name. **Delete folders** by deleting all files from the folder. Once all the files within the folder have been deleted, a “delete” link will appear to the right of the folder name.
Step 6a: Enter Daily Clock Hours

- Click on the “Clockhours” link located on the lobby page or the “Student Information” link then “Clockhours.”
- Click on the “Daily clockhours” link located within the blue stripe.
- Click on the “Add new daily clockhour” link.
- Complete the requested information and click “save.”
- Record clock hours and click “save” located at the bottom of the screen. You will receive a “Clockhour saved” message.

To add clock hours for a *different* supervisor, clinical setting, or semester:
- Repeat above steps to enter additional clock hours gained under a different supervisor, clinical setting, or semester.

To add additional clock hours to the *same* record:
- Click on the “Daily clockhours” link located within the blue stripe.
- Select the record you wish to view (posted by supervisor, semester, course, and setting) from the drop-down menu and click “Show.”
- Click the “Copy” button located next to the date of a previous entry.
- Record the new clock hours (changing the date if necessary) and click “save” located at the bottom of the screen. You will receive a “Clockhour saved” message.

To view/edit daily clock hours, click on the “Daily clockhours” link located within the blue stripe.
- Select the record you wish to view (posted by supervisor, semester, and course) from the drop-down menu and click “Show.”
- Select the desired entry by clicking on the link displaying the entry date located along the top of the chart.
- Make desired changes and click save.
- Please note: Supervisors are not notified and are not required to approve daily clock hour submissions.

Step 6b: Submit Clock Hours for Supervisor Approval

- Click on the “Daily clockhours” link located within the blue stripe.
- Select the record you wish to view (posted by supervisor, semester, and course) from the drop-down menu and click “Show.”
- Check the box (located beside the entry date) for all dates you wish to submit for approval then click “Submit selected clockhours for supervisor approval.” Clock hours logged for the dates selected will be consolidated into one record for supervisor approval. The designated supervisor will receive an automatically generated e-mail requesting approval of the clock hour record.
- Please note: Daily entries cannot be edited once approved. However, if you delete the entry from the “Clockhour list” link prior to approval, daily hours may be resubmitted.
- View consolidated clock hour entries by clicking “Clockhours list” located within the blue stripe.
Step 7: View Clinical Performance Evaluations

- Click on “Student Information” and then “Evaluations.”
- As clinical performance evaluations are completed on you by your supervisors, the evaluations will automatically post to this link.
- View a desired evaluation by clicking on the “current evaluation” link highlighted in blue.

Step 8: View Cumulative Evaluation

- Click on “Student Information” and then “Cumulative evaluation” to view a summary of your clinical competency across the 9 disorder areas.
- Upon graduation, you must demonstrate competency for all clinical competencies listed on the form.
- Please make note of any areas of deficiency which are highlighted in orange.

Step 9: View Performance Summary

- Click on “Student Information” and then “Performance summary” to view a summary of your clinical performance across all clinical courses to date.

Step 10: View My Checklist

- Click on “Student Information” and then “My Checklist” to view your progress in meeting the clinical requirements for graduation.
- Upon graduation, all requirements should have been met, represented with a green check mark.
Step 11: Complete Self-Evaluation

- At the completion of each clinical course or as directed by your Clinical Coordinator, complete a self-evaluation.
- From the lobby page, click on the “Self-evaluations” link.
- Click on “New self-evaluation.”
- Complete required fields designated with an asterisk and press “save.”
- Continue completing self-evaluation by scoring all applicable skills across the Big 9 using the provided scoring method and saving frequently to avoid loss of data.
- Once the evaluation is complete, check the “final submission” box and click “save.”
- Receive message stating “evaluation recorded.”
- Please note: you may edit and save the evaluation as often as you wish until the final submission box is checked. Once the final submission box is checked and the evaluation saved, the status will change from “in progress” to “final”.
- To view the evaluation, click “Evaluations list” located within the blue stripe.

Step 12: Complete Supervisor Feedback Form

- At the completion of each clinical course or as directed by your Clinical Coordinator, complete feedback for each clinical supervisor.
- From the lobby page, click “Supervisor feedback forms.”
- Click “New supervisor feedback.”
- Complete form and click “Submit feedback.”
- Your completed feedback form will be posted for Clinical Coordinator approval. Once approved, feedback will be posted for the clinical supervisor to view. Until approved, the feedback may be edited by clicking on “View/edit.”

Step 13: View Site Information Forms

- The “Site Information Forms” link located on the lobby page displays pertinent information on the sites/facilities that your school affiliates with for clinical placements.
- To view available information, identify the desired site and click “View” located in the fifth column under submitted.
- Please note: “In progress” forms are not accessible to students; only “submitted” forms are accessible to students.
APPENDIX B: CODE OF ETHICS

ASHA Code of Ethics Effective March 1, 2016

Preamble

The American Speech-Language-Hearing Association (ASHA; hereafter, also known as "The Association") has been committed to a framework of common principles and standards of practice since ASHA's inception in 1925. This commitment was formalized in 1952 as the Association's first Code of Ethics. This Code has been modified and adapted as society and the professions have changed. The Code of Ethics reflects what we value as professionals and establishes expectations for our scientific and clinical practice based on principles of duty, accountability, fairness, and responsibility. The ASHA Code of Ethics is intended to ensure the welfare of the consumer and to protect the reputation and integrity of the professions.

The ASHA Code of Ethics is a framework and focused guide for professionals in support of day-to-day decision making related to professional conduct. The Code is partly obligatory and disciplinary and partly aspirational and descriptive in that it defines the professional's role. The Code educates professionals in the discipline, as well as students, other professionals, and the public, regarding ethical principles and standards that direct professional conduct.

The preservation of the highest standards of integrity and ethical principles is vital to the responsible discharge of obligations by audiologists, speech-language pathologists, and speech, language, and hearing scientists who serve as clinicians, educators, mentors, researchers, supervisors, and administrators. This Code of Ethics sets forth the fundamental principles and rules considered essential to this purpose and is applicable to the following individuals:

- a member of the American Speech-Language-Hearing Association holding the Certificate of Clinical Competence (CCC)
- a member of the Association not holding the Certificate of Clinical Competence (CCC)
- a nonmember of the Association holding the Certificate of Clinical Competence (CCC)
- an applicant for certification, or for membership and certification

By holding ASHA certification or membership, or through application for such, all individuals are automatically subject to the jurisdiction of the Board of Ethics for ethics complaint adjudication. Individuals who provide clinical services and who also desire membership in the Association must hold the CCC.

The fundamentals of ethical conduct are described by Principles of Ethics and by Rules of Ethics. The four Principles of Ethics form the underlying philosophical basis for the Code of Ethics and are reflected in the following areas: (I) responsibility to persons served professionally and to research participants, both human and animal; (II) responsibility for
one's professional competence; (III) responsibility to the public; and (IV) responsibility for professional relationships. Individuals shall honor and abide by these Principles as affirmative obligations under all conditions of applicable professional activity. Rules of Ethics are specific statements of minimally acceptable as well as unacceptable professional conduct.

The Code is designed to provide guidance to members, applicants, and certified individuals as they make professional decisions. Because the Code is not intended to address specific situations and is not inclusive of all possible ethical dilemmas, professionals are expected to follow the written provisions and to uphold the spirit and purpose of the Code. Adherence to the Code of Ethics and its enforcement results in respect for the professions and positive outcomes for individuals who benefit from the work of audiologists, speech-language pathologists, and speech, language, and hearing scientists.

**Terminology**

**ASHA Standards and Ethics**
The mailing address for self-reporting in writing is American Speech-Language-Hearing Association, Standards and Ethics, 2200 Research Blvd., #313, Rockville, MD 20850.

**advertising**
Any form of communication with the public about services, therapies, products, or publications.

**conflict of interest**
An opposition between the private interests and the official or professional responsibilities of a person in a position of trust, power, and/or authority.

**crime**
Any felony; or any misdemeanor involving dishonesty, physical harm to the person or property of another, or a threat of physical harm to the person or property of another. For more details, see the "Disclosure Information" section of applications for ASHA certification found on [www.asha.org/certification/AudCertification/](http://www.asha.org/certification/AudCertification/) and [www.asha.org/certification/SLPCertification/](http://www.asha.org/certification/SLPCertification/).

**diminished decision-making ability**
Any condition that renders a person unable to form the specific intent necessary to determine a reasonable course of action.

**fraud**
Any act, expression, omission, or concealment—the intent of which is either actual or constructive—calculated to deceive others to their disadvantage.

**impaired practitioner**
An individual whose professional practice is adversely affected by addiction, substance abuse, or health-related and/or mental health–related conditions.

**individuals**
Members and/or certificate holders, including applicants for certification.

**informed consent**
May be verbal, unless written consent is required; constitutes consent by persons served, research participants engaged, or parents and/or guardians of persons served to a proposed course of action after the communication of adequate information regarding expected outcomes and potential risks.

**jurisdiction**
The "personal jurisdiction" and authority of the ASHA Board of Ethics over an individual holding ASHA certification and/or membership, regardless of the individual's geographic location.

**know, known, or knowingly**
Having or reflecting knowledge.

**may vs. shall**
*May* denotes an allowance for discretion; *shall* denotes no discretion.

**misrepresentation**
Any statement by words or other conduct that, under the circumstances, amounts to an assertion that is false or erroneous (i.e., not in accordance with the facts); any statement made with conscious ignorance or a reckless disregard for the truth.

**negligence**
Breaching of a duty owed to another, which occurs because of a failure to conform to a requirement, and this failure has caused harm to another individual, which led to damages to this person(s); failure to exercise the care toward others that a reasonable or prudent person would take in the circumstances, or taking actions that such a reasonable person would not.

**nolo contendere**
No contest.

**plagiarism**
False representation of another person's idea, research, presentation, result, or product as one's own through irresponsible citation, attribution, or paraphrasing; ethical misconduct does not include honest error or differences of opinion.

**publicly sanctioned**
A formal disciplinary action of public record, excluding actions due to insufficient continuing education, checks returned for insufficient funds, or late payment of fees not resulting in unlicensed practice.

**reasonable or reasonably**
Supported or justified by fact or circumstance and being in accordance with reason, fairness, duty, or prudence.

**self-report**
A professional obligation of self-disclosure that requires (a) notifying ASHA Standards and Ethics and (b) mailing a hard copy of a certified document to ASHA Standards and Ethics (see term above). All self-reports are subject to a separate ASHA Certification review process, which, depending on the seriousness of the self-reported information, takes additional processing time.

**shall vs. may**
*Shall* denotes no discretion; *may* denotes an allowance for discretion.
support personnel
Those providing support to audiologists, speech-language pathologists, or speech, language, and hearing scientists (e.g., technician, paraprofessional, aide, or assistant in audiology, speech-language pathology, or communication sciences and disorders). For more information, read the Issues in Ethics Statements on Audiology Assistants and/or Speech-Language Pathology Assistants.

telepractice, teletherapy
Application of telecommunications technology to the delivery of audiology and speech-language pathology professional services at a distance by linking clinician to client/patient or clinician to clinician for assessment, intervention, and/or consultation. The quality of the service should be equivalent to in-person service. For more information, see the telepractice section on the ASHA Practice Portal.

written
Encompasses both electronic and hard-copy writings or communications.

Principle of Ethics I
Individuals shall honor their responsibility to hold paramount the welfare of persons they serve professionally or who are participants in research and scholarly activities, and they shall treat animals involved in research in a humane manner.

Rules of Ethics
A. Individuals shall provide all clinical services and scientific activities competently.

B. Individuals shall use every resource, including referral and/or interprofessional collaboration when appropriate, to ensure that quality service is provided.

C. Individuals shall not discriminate in the delivery of professional services or in the conduct of research and scholarly activities on the basis of race, ethnicity, sex, gender identity/gender expression, sexual orientation, age, religion, national origin, disability, culture, language, or dialect.

D. Individuals shall not misrepresent the credentials of aides, assistants, technicians, support personnel, students, research interns, Clinical Fellows, or any others under their supervision, and they shall inform those they serve professionally of the name, role, and professional credentials of persons providing services.

E. Individuals who hold the Certificate of Clinical Competence may delegate tasks related to the provision of clinical services to aides, assistants, technicians, support personnel, or any other persons only if those persons are adequately prepared and are appropriately supervised. The responsibility for the welfare of those being served remains with the certified individual.

F. Individuals who hold the Certificate of Clinical Competence shall not delegate tasks that require the unique skills, knowledge, judgment, or credentials that are within the scope of their profession to aides, assistants, technicians, support personnel, or any nonprofessionals over whom they have supervisory responsibility.

G. Individuals who hold the Certificate of Clinical Competence may delegate to students tasks related to the provision of clinical services that require the unique skills,
knowledge, and judgment that are within the scope of practice of their profession only if those students are adequately prepared and are appropriately supervised. The responsibility for the welfare of those being served remains with the certified individual.

H. Individuals shall obtain informed consent from the persons they serve about the nature and possible risks and effects of services provided, technology employed, and products dispensed. This obligation also includes informing persons served about possible effects of not engaging in treatment or not following clinical recommendations. If diminished decision-making ability of persons served is suspected, individuals should seek appropriate authorization for services, such as authorization from a spouse, other family member, or legally authorized/appointed representative.

I. Individuals shall enroll and include persons as participants in research or teaching demonstrations only if participation is voluntary, without coercion, and with informed consent.

J. Individuals shall accurately represent the intended purpose of a service, product, or research endeavor and shall abide by established guidelines for clinical practice and the responsible conduct of research.

K. Individuals who hold the Certificate of Clinical Competence shall evaluate the effectiveness of services provided, technology employed, and products dispensed, and they shall provide services or dispense products only when benefit can reasonably be expected.

L. Individuals may make a reasonable statement of prognosis, but they shall not guarantee—directly or by implication—the results of any treatment or procedure.

M. Individuals who hold the Certificate of Clinical Competence shall use independent and evidence-based clinical judgment, keeping paramount the best interests of those being served.

N. Individuals who hold the Certificate of Clinical Competence shall not provide clinical services solely by correspondence, but may provide services via telepractice consistent with professional standards and state and federal regulations.

O. Individuals shall protect the confidentiality and security of records of professional services provided, research and scholarly activities conducted, and products dispensed. Access to these records shall be allowed only when doing so is necessary to protect the welfare of the person or of the community, is legally authorized, or is otherwise required by law.

P. Individuals shall protect the confidentiality of any professional or personal information about persons served professionally or participants involved in research and scholarly activities and may disclose confidential information only when doing so is necessary to protect the welfare of the person or of the community, is legally authorized, or is otherwise required by law.

Q. Individuals shall maintain timely records and accurately record and bill for services provided and products dispensed and shall not misrepresent services provided, products dispensed, or research and scholarly activities conducted.
R. Individuals whose professional practice is adversely affected by substance abuse, addiction, or other health-related conditions are impaired practitioners and shall seek professional assistance and, where appropriate, withdraw from the affected areas of practice.

S. Individuals who have knowledge that a colleague is unable to provide professional services with reasonable skill and safety shall report this information to the appropriate authority, internally if a mechanism exists and, otherwise, externally.

T. Individuals shall provide reasonable notice and information about alternatives for obtaining care in the event that they can no longer provide professional services.

**Principle of Ethics II**

Individuals shall honor their responsibility to achieve and maintain the highest level of professional competence and performance.

**Rules of Ethics**

A. Individuals who hold the Certificate of Clinical Competence shall engage in only those aspects of the professions that are within the scope of their professional practice and competence, considering their certification status, education, training, and experience.

B. Members who do not hold the Certificate of Clinical Competence may not engage in the provision of clinical services; however, individuals who are in the certification application process may engage in the provision of clinical services consistent with current local and state laws and regulations and with ASHA certification requirements.

C. Individuals who engage in research shall comply with all institutional, state, and federal regulations that address any aspects of research, including those that involve human participants and animals.

D. Individuals shall enhance and refine their professional competence and expertise through engagement in lifelong learning applicable to their professional activities and skills.

E. Individuals in administrative or supervisory roles shall not require or permit their professional staff to provide services or conduct research activities that exceed the staff member's certification status, competence, education, training, and experience.

F. Individuals in administrative or supervisory roles shall not require or permit their professional staff to provide services or conduct clinical activities that compromise the staff member's independent and objective professional judgment.

G. Individuals shall make use of technology and instrumentation consistent with accepted professional guidelines in their areas of practice. When such technology is not available, an appropriate referral may be made.

H. Individuals shall ensure that all technology and instrumentation used to provide services or to conduct research and scholarly activities are in proper working order and are properly calibrated.
Principle of Ethics III

Individuals shall honor their responsibility to the public when advocating for the unmet communication and swallowing needs of the public and shall provide accurate information involving any aspect of the professions.

Rules of Ethics

A. Individuals shall not misrepresent their credentials, competence, education, training, experience, and scholarly contributions.

B. Individuals shall avoid engaging in conflicts of interest whereby personal, financial, or other considerations have the potential to influence or compromise professional judgment and objectivity.

C. Individuals shall not misrepresent research and scholarly activities, diagnostic information, services provided, results of services provided, products dispensed, or the effects of products dispensed.

D. Individuals shall not defraud through intent, ignorance, or negligence or engage in any scheme to defraud in connection with obtaining payment, reimbursement, or grants and contracts for services provided, research conducted, or products dispensed.

E. Individuals' statements to the public shall provide accurate and complete information about the nature and management of communication disorders, about the professions, about professional services, about products for sale, and about research and scholarly activities.

F. Individuals' statements to the public shall adhere to prevailing professional norms and shall not contain misrepresentations when advertising, announcing, and promoting their professional services and products and when reporting research results.

G. Individuals shall not knowingly make false financial or nonfinancial statements and shall complete all materials honestly and without omission.

Principle of Ethics IV

Individuals shall uphold the dignity and autonomy of the professions, maintain collaborative and harmonious interprofessional and intraprofessional relationships, and accept the professions' self-imposed standards.

Rules of Ethics

A. Individuals shall work collaboratively, when appropriate, with members of one's own profession and/or members of other professions to deliver the highest quality of care.

B. Individuals shall exercise independent professional judgment in recommending and providing professional services when an administrative mandate, referral source, or prescription prevents keeping the welfare of persons served paramount.
C. Individuals' statements to colleagues about professional services, research results, and products shall adhere to prevailing professional standards and shall contain no misrepresentations.

D. Individuals shall not engage in any form of conduct that adversely reflects on the professions or on the individual's fitness to serve persons professionally.

E. Individuals shall not engage in dishonesty, negligence, fraud, deceit, or misrepresentation.

F. Applicants for certification or membership, and individuals making disclosures, shall not knowingly make false statements and shall complete all application and disclosure materials honestly and without omission.

G. Individuals shall not engage in any form of harassment, power abuse, or sexual harassment.

H. Individuals shall not engage in sexual activities with individuals (other than a spouse or other individual with whom a prior consensual relationship exists) over whom they exercise professional authority or power, including persons receiving services, assistants, students, or research participants.

I. Individuals shall not knowingly allow anyone under their supervision to engage in any practice that violates the Code of Ethics.

J. Individuals shall assign credit only to those who have contributed to a publication, presentation, process, or product. Credit shall be assigned in proportion to the contribution and only with the contributor's consent.

K. Individuals shall reference the source when using other persons' ideas, research, presentations, results, or products in written, oral, or any other media presentation or summary. To do otherwise constitutes plagiarism.

L. Individuals shall not discriminate in their relationships with colleagues, assistants, students, support personnel, and members of other professions and disciplines on the basis of race, ethnicity, sex, gender identity/gender expression, sexual orientation, age, religion, national origin, disability, culture, language, dialect, or socioeconomic status.

M. Individuals with evidence that the Code of Ethics may have been violated have the responsibility to work collaboratively to resolve the situation where possible or to inform the Board of Ethics through its established procedures.

N. Individuals shall report members of other professions who they know have violated standards of care to the appropriate professional licensing authority or board, other professional regulatory body, or professional association when such violation compromises the welfare of persons served and/or research participants.

O. Individuals shall not file or encourage others to file complaints that disregard or ignore facts that would disprove the allegation; the Code of Ethics shall not be used for personal reprisal, as a means of addressing personal animosity, or as a vehicle for retaliation.
P. Individuals making and responding to complaints shall comply fully with the policies of the Board of Ethics in its consideration, adjudication, and resolution of complaints of alleged violations of the Code of Ethics.

Q. Individuals involved in ethics complaints shall not knowingly make false statements of fact or withhold relevant facts necessary to fairly adjudicate the complaints.

R. Individuals shall comply with local, state, and federal laws and regulations applicable to professional practice, research ethics, and the responsible conduct of research.

S. Individuals who have been convicted; been found guilty; or entered a plea of guilty or nolo contendere to (1) any misdemeanor involving dishonesty, physical harm—or the threat of physical harm—to the person or property of another, or (2) any felony, shall self-report by notifying ASHA Standards and Ethics (see Terminology for mailing address) in writing within 30 days of the conviction, plea, or finding of guilt. Individuals shall also provide a certified copy of the conviction, plea, nolo contendere record, or docket entry to ASHA Standards and Ethics within 30 days of self-reporting.

T. Individuals who have been publicly sanctioned or denied a license or a professional credential by any professional association, professional licensing authority or board, or other professional regulatory body shall self-report by notifying ASHA Standards and Ethics (see Terminology for mailing address) in writing within 30 days of the final action or disposition. Individuals shall also provide a certified copy of the final action, sanction, or disposition to ASHA Standards and Ethics within 30 days of self-reporting.
